The 13th September 1856.

THE following Bill was read a second time in the Legislative Council on the 13th September 1856, and was referred to a Select Committee who are to report thereon after the 17th of December next:—

A Bill for the acquisition of land for public purposes.

WHEREAS it is expedient to make better provision for the acquisition of land needed for public purposes within the territories in the possession and under the Government of the East India Company, and for the determination of the amount of compensation to be made for the same: It is enacted as follows:—

I. Sections I to VII inclusive, Regulation I. 1824 of the Bengal Code; so much of Act XXVIII of 1839 as is in force; Act I of 1850; Act XVII of 1850; Act XLII of 1850; Act XX of 1852; and Act I of 1854—are hereby repealed, except so far as they repeal the whole or any part of any other Regulation or Act, and except as to suits commenced, contracts made, acts done, and liabilities incurred before the passing of this Act.

II. Whenever it shall appear to the Local Government that any land is needed for a public purpose, a declaration shall be made to that effect under the signature of a Secretary to the Government or of some duly authorized Officer, and such declaration shall be conclusive evidence that the purpose for which the land is needed is a public purpose; and after making such declaration, the Government may take any such land in the manner hereinafter provided.

III. Whenever any land shall have been declared to be needed for a public purpose, the Government shall direct the Collector of the District or some other Officer to cause the land to be marked out and measured.

IV. After the land has been so marked out and measured, the Collector or other Officer shall give notice to the occupier (if any) thereof and to all persons known or believed to be interested therein, that the land is about to be taken by Government for a public purpose, and shall cause a notice to the same effect to be affixed in some conspicuous place upon the land and published by proclamation in the neighbouring bazars and villages. Such notice shall contain a citation calling on all persons interested in the land to appear at a time and place therein mentioned, such time not being less than fifteen days after the date of notice, and to state the nature of their interests in the land and the amount and particulars of their claims to compensation for the same.

V. On the day fixed, the Collector or other Officer shall inquire summarily into the value of the land and the rights of the persons interested. into the rights of all persons having or claiming any interest therein; and if he and all the per-

sons whose claims appear to him to be valid, and who have attended in pursuance of the notice, agree as to the amount of compensation to be allowed and the apportionment thereof, shall make an award for the same; and such award, so far as it respects the value of the land and the amount of compensation thereby awarded for the same, shall be final and conclusive.

VI. If the Collector or other Officer shall be unable to agree, with the persons whose claims appear to him to be valid and who have attended in pursuance of the notice, as to the amount of compensation to be awarded, or if any dispute shall arise as to the division or apportionment of such amount, the matter in dispute shall be referred to the determination of arbitrators, to be appointed in the manner hereinafter provided.

VII. When the Collector or other Officer has made an award or directed a reference to arbitration, he may take immediate possession of the land, which shall thenceforward be vested absolutely in the Government, free from all other estates, rights, titles, and interests. Provided always, that nothing in this Act contained shall affect the liability of any person who may receive the value of any land so taken without having a good title to the same.

VIII. If the Collector or other Officer is opposed or impeded in taking possession of such land, he shall apply to the Magistrate of the District, who shall enforce the surrender of the land.

IX. *Clause 1.*—When any case is referred to arbitration, the Collector or other Officer, and the person interested in the matter in dispute, shall, unless they concur in the appointment of a single arbitrator, each appoint one arbitrator; if there be several persons having a joint interest in the matter in dispute, and they cannot agree in the appointment of an arbitrator, such disagreement shall be deemed a refusal to appoint within the meaning of the next following Section.

Clause 2.—If there be several persons having distinct and separate interests in the matter in dispute, and they cannot agree in the appointment of an arbitrator on their behalf, it shall be competent to the Collector (subject to the orders of the Commissioner or other superior Revenue Authority) either to refer each of such distinct and separate interests to a separate arbitration, or to select any one of such persons whose interest appears to him of such a description as to qualify such person to represent the others; and the person so selected shall appoint an arbitrator on behalf of all the persons interested in the matter in dispute.

In every case the appointment shall be in writing, and neither of the parties to the arbitration shall have power to revoke the same without the consent of the other.

X. If the persons interested in the matter in dispute, or authorized to act in that behalf, refuse or neglect for the period of one week to appoint an arbitrator, then a single arbitrator appointed by the said Collector or Officer shall arbitrate the matter.

XI. When more than one arbitrator shall be appointed, the arbitrators shall, before they enter upon the matter referred to them, nominate and appoint by writing a third person to act with them as arbitrator; and in case the arbitrators shall neglect to appoint such third person for a period of one week after having been required to do so, the Collector or other Officer shall appoint a third arbitrator.

XII. If any person, on being appointed an arbitrator, shall refuse to act, or, after accepting the appointment, shall die or become incapable of acting, another person shall be appointed in his stead, in the same manner in which the first person was appointed.

XIII. After the arbitrators have accepted the appointment, the Collector or other Officer shall be competent to exercise towards them such powers and authority for securing their attendance and the due completion of their award, as the Collector may legally exercise towards witnesses summoned before him when acting judicially for the purpose of compelling them to attend and give evidence.

XIV. If no award be made within a period to be fixed for that purpose by the Collector or other Officer, he may order that the matter shall be referred to another arbitrator or other arbitrators to be chosen in the same manner and subject to the same rules as the first.

XV. The Collector or other Officer shall furnish to the arbitrators, or so far as may be in his power procure for them, any information which his records or those of any public department may afford connected with the subject of enquiry. He shall, on the application of the arbitrators, summon any witnesses whom the arbitrators may call for and whom the parties may not be able to produce before them without such process, and require the persons so summoned to bring and produce before them all such books, papers, deeds, writings, maps, and plans as they shall require. He shall also cause the proper affirmation to be made by any witness whom the arbitrators may desire to examine upon affirmation, or he may empower the arbitrators to cause such affirmation to be made before them. Any witness who shall refuse or omit to appear when duly summoned by the Collector or other Officer, or who shall appear but shall refuse to make such affirmation, or who shall refuse to give evidence, shall be liable to the same punishment which would be incurred under the law by a witness refusing to appear or give evidence before the Collector when acting judicially. Any person giving intentionally and deliberately a false deposition under an affirmation, in any case referred to arbitration, as above, shall be held to be guilty of

perjury, and shall be liable to the penalties prescribed for that offence by law.

XVI. On the close of the enquiry, the arbitrators or a majority of them shall deliver a full and complete award in respect of the matter referred to them, and shall therein specify (as the nature of the case may require) the amount and particulars of compensation awarded by them, the persons entitled thereto, and the proportions in which they are so entitled. The proceedings of the arbitration shall be deposited in the office of the Collector or other Officer, and every person interested therein shall be entitled to a copy of the award on plain paper under the seal and signature of the Collector or other Officer, which copy shall be *prima facie* evidence thereof.

XVII. When any land is taken under the provisions of this Act, the amount of compensation to be awarded shall include any damage which may be done thereby to any adjoining land.

XVIII. When any land taken under this Act forms part of an estate paying revenue to Government, the award shall specify the net rent of the land including the Government Revenue, and the computed value of such rent; and it shall be at the discretion of the Revenue Authorities, either to pay over the whole of such value to the owner of the estate on the condition of his continuing to pay the jumma thereof without abatement, or to determine what proportion of the net rent shall be allowed as a remission of revenue, in which case a deduction shall be made from the said value proportionate to the value of such remission.

XIX. If there exist any ground which, in the judgment of the Collector or other Officer, renders it improper to make immediate payment of the compensation, or of any portion thereof, to any of the persons having or claiming any interest in the land or in the compensation awarded in respect thereof, the amount, or such portion of the amount as he may deem sufficient, shall be invested in Government Securities, and held in deposit until an order of Court shall be obtained for the payment thereof.

XX. Upon the application by petition of any person claiming the amount so deposited, or any part thereof, any Court of competent jurisdiction may, in a summary way, order such money to be or to continue invested in Government Securities, or may order the distribution thereof, or payment of the interest thereof, according to the respective rights and interests of all persons making claim to such money or any part thereof, or may make such other order as the Court shall deem fit.

XXI. No award of arbitrators made under this Act, so far as regards the amount of compensation thereby awarded, shall be liable to be reversed or altered, except by the decision of a Civil Court on the ground of corruption or misconduct of the arbitrators, and in no case shall a suit to set aside an award under this Act be entertained unless it be instituted within three months from the date of the award. A Bill for the regulation of Native Passenger Ships.

WHEREAS abuses have occurred in the overcrowding of Ships conveying Native Passengers from ports and places within the territories in the possession and under the Government of the East India Company to other ports and places within the said territories and elsewhere; and whereas it is expedient to prevent such abuses, and to provide for the regulation of all Ships carrying Native Passengers which shall depart from or arrive at any of the ports or places within the said territories : It is enacted as follows :—

I. In the construction of this Act the words "Native Passenger Ship" shall mean every description of sea-going vessel carrying, upon any voyage to which this Act extends, more than thirty passengers being natives of Asia or Africa; or carrying upon any such voyage any number whatsoever of such passengers, in case the whole number of persons on board amounts to the proportion of two persons to every three tons of the registered or estimated tonnage of the vessel.

II. This Act shall extend to every Native Passenger Ship proceeding on any voyage (other than the voyages specified in Section XXV) from a port or place within the said territories to any other place whatsoever, whether within the said territories or not, where the duration of the voyage, to be prescribed as mentioned in Section XVII, shall exceed seven days.

III. No Native Passenger Ship shall depart upon any voyage to which this Act extends from any port or place within the said territories other than such ports and places as the local Government may, from time to time, appoint; and after the departure of any Native Passenger Ship upon any such voyage from a port or place so to be appointed, no person whatsoever shall be received on board as a passenger except at some other duly appointed port or place.

IV. No Native Passenger Ship shall depart upon any such voyage from any port or place appointed under this Act, until the Master shall have obtained a certificate from an Officer authorized to grant the same; nor until a bond shall have been entered into by the Master as provided in Section XXI.

V. If any Native Passenger Ship departs upon a voyage from any port or place within the said territories, or if any person shall be received as a passenger on board a Native Passenger Ship in contravention of the provisions of the last two preceding Sections, the Owner or Master shall be liable to a

penalty not exceeding one hundred Rupees for every passenger unlawfully received on board; and the Ship, if found within two years in any place within the said territories, may be seized and detained by any Chief Officer of Customs, until the penalties incurred under this Act have been adjudicated, and the payment thereof, with all costs, have been enforced under the provisions of Section XXXIII.

VI. The local Government shall determine the persons who shall be authorized to exercise or perform the powers and duties conferred or imposed by this Act.

VII. The Master of any Native Passenger Ship sailing from any port or place appointed under this Act shall give notice to the proper Officer that the Ship is to carry native passengers, and of her destination, and of the proposed day of sailing; such notice shall be given not less than seven days before the proposed day of sailing.

VIII. After receiving such notice, the Officer aforesaid, or any person authorized by him, shall be at liberty at all times to enter and inspect the Ship and the fittings, provisions, and stores therein; and any person impeding or refusing to allow such inspection, shall be liable, on conviction, to a penalty not exceeding five hundred Rupees for each offence.

IX. The Officer aforesaid may, if he think fit, cause the Ship to be surveyed at the expense of the Master by a competent surveyor, who shall report whether the Ship is, in his opinion, sea-worthy and fit for her intended voyage.

X. The Officer aforesaid shall not give his certificate unless he shall be satisfied—

1. That the Ship is sea-worthy and properly manned, equipped, fitted, and ventilated; and has not on board any cargo likely, from its quality, quantity, or mode of stowage, to prejudice the health or safety of the passengers.

2. That the space appropriated to the passengers in the between-decks contains at the least twelve superficial and seventy-two cubical feet of space for every adult passenger on board, that is to say, for every passenger above twelve years of age, and for every two passengers between the ages of one year and twelve years.

3. That a space of five superficial feet per adult is left clear on the upper deck for the use of the passengers.

4. That provisions, fuel, and water have been placed on board, of good quality, properly packed, and sufficient to supply the passengers on board during the declared duration of the intended voyage, according to the scale hereinafter contained.

XI. No such Ship shall carry any greater number of passengers than, together with the Master and Crew, shall amount to the proportion of two persons for every three tons of the registered or estimated tonnage of the Ship.

XII. The Master of any such Ship shall, before commencing his voyage, sign two lists, specifying as accurately as may be the names and ages of all the passengers, and shall deliver them to the Officer aforesaid, who shall thereupon (after having first mustered the passengers and compared the number and names of such passengers with the lists) countersign and return to the Master one of such lists. The Master shall note in writing on such last-mentioned list, and on any additional list to be made under this Act, the date and supposed cause of death of any passenger who may die on the voyage, and shall forthwith on the arrival of the ship and before any passengers are landed, produce the list, with any additions thereto made, to any Chief Officer of Customs at any port in a British Colony, or to any person lawfully exercising Consular authority on behalf of Her Majesty in any Foreign port, or to any like Officer of Customs, or to the Officer (if any) appointed under this Act, at any port or place within the said territories at which the passengers or any of them shall be landed. In case of non-compliance with any of the requirements of this Section on the part of the Master, or if such lists shall be wilfully false, the Master shall be liable to a penalty not exceeding five hundred Rupees for each offence.

XIII. If, after the Ship shall have commenced her voyage, any additional passengers are taken on board at a port or place, within the said territories, appointed under this Act for the embarkation of passengers, or if such Ship shall, upon her voyage, touch or arrive at any such port, having previously received on board additional passengers at any place out of the said territories, the Master shall obtain a fresh certificate from the Officer at such port, and also lists of all such additional passengers shall be made; and all the provisions hereinbefore contained in that behalf shall be applicable to any certificate to be granted or any list to be made under this Section.

XIV. If any Master of a Ship, after having obtained a certificate under Section IV or Section XIII of this Act, shall fraudulently do or suffer to be done any act or thing whereby such certificate shall become inapplicable to the altered state of the Ship, its passengers, or other matters to which such certificate relates, he shall be liable to a penalty not exceeding two thousand Rupees.

XV. The Chief Officer of Customs, or the Officer (if any) appointed under this Act, at any port or place within the said territories at which the Ship shall touch or arrive, shall forthwith transmit any particulars which he may deem important respecting the Ship and the passengers conveyed thereby and the requirements of this Act, to the Officer at the port from which the Ship commenced her voyage, and also to the Officer at any other port within the said territories where the passengers or any of them embarked.

XVI. In any proceeding under this Act or in respect of the bond hereby required, any document purporting to be a report of such particulars as are referred to in the last preceding Section, or a copy of the proceedings of any Court of Justice duly authen-

ticated, and also any like document purporting to be made and signed by any Chief Officer of Customs at any port in a British Colony or by any person lawfully exercising Consular authority on behalf of Her Majesty in any Foreign port, shall be received in evidence, if the same appears to have been officially transmitted to any Officer at or near the place where the proceeding under this Act is had.

XVII. It shall be lawful for the local Government, by any proclamation to be from time to time issued for that purpose and published in the *Government Gazette*, (if any,) or in one of the public newspapers, to declare what shall be deemed, for the purposes of this Act, the duration of the voyage of any Native Passenger Ship from any port or place to any other port or place.

XVIII. The provision of this Section regarding food shall be deemed to have been complied with in any case where it shall appear that, by the special authority of the local Government, any other articles of food were substituted for the articles above enumerated as being equivalent thereto.

XIX. The Master of any Native Passenger Ship shall, every day during the voyage, including the time of detention at any place before the termination thereof, issue to each passenger, or to the headman of each mess (if any), for the use of all the members thereof, provisions and water of the description and according to the provisions mentioned in the last preceding Section; and in case of non-compliance with any of the requirements of this Section, the Master shall be liable, on conviction, to a penalty not exceeding ten Rupees for each offence.

XX. The requirements of this Act respecting the issue of provisions shall not, except as to the issue of water, be applicable to any passenger who may have contracted to furnish his own provisions.

XXIII. If any Ship, bringing passengers into any port or place whatsoever within the said territories, shall have on board a greater number of passengers or persons than in the proportion prescribed by this Act, the Master of such Ship shall, in addition to any other penalty which he may have incurred under the provisions of this Act, be liable, on conviction, to a penalty not exceeding fifty Rupees for each person in excess of such proportion.

XXX. In the grant or revocation of any certificate whatsoever under this Act, the Officer granting the same shall be subject to the control of the local Government or of any intermediate authority which that Government may appoint.

XXXI. If any native passenger in any Ship, whether a Native Passenger Ship within the meaning of this Act or not, shall be landed at any port or place other than the port or place at which he may have contracted to land, unless with his previous consent, or unless such landing is made necessary by perils of the sea or other unavoidable accident, the Master shall, for each offence, be liable to a penalty not exceeding two hundred Rupees.

Lieutenant-Colonel Francis Archibald Reid, C. B., Madras Infantry, to be Colonel in the Army from the 22nd August 1856.

Fort William, 19th September 1856.

No. 1198 of 1856.—The Right Hon'ble the Governor General in Council has had, under his consideration, a report of the circumstances connected with a violent and angry interference on the part of Captain Doria, of the 28th Regiment Madras Native Infantry, Commandant of the 4th Cavalry, Hyderabad Contingent, and Commanding the Station of Hingolee, with a large concourse of Natives engaged in the celebration of a marriage on the 8th of August last, many of them being Soldiers of the Contingent.

After the painful events which occurred last year at Bolarum, the measures taken, and the Order issued thereupon by the Government of India, it might have been expected that the Officers of the Hyderabad Contingent, especially those of experience and in high Command, would have learnt the value of temper, forbearance, and caution, in any circumstances which should bring them into contact with Native ceremonies and rites.

The act of Captain Doria, as admitted by himself, was one of anger so violent as to draw blood, and it was committed upon persons and on an occasion which stamp it as deserving prompt and most severe punishment.

Making every possible allowance for the motives which dictated Captain Doria's interference, an Officer who has exhibited such lamentable want of self control, and who not only is not restrained by a sense of his duty from seeking personal collision with his inferiors, but is utterly regardless of warnings and orders which must be fresh in his recollection, cannot fitly and safely be trusted with the Command which Captain Doria holds.

Therefore, the Right Hon'ble the Governor General in Council is pleased to resolve, that Captain Doria shall be removed from the Command which he now holds in the Hyderabad Contingent; and that Officer's services are accordingly placed at the disposal of the Madras Government for Regimental duty.

No. 1199 of 1856.—The Right Hon'ble the Governor General of India in Council is pleased to make the following promotion:—

MEMO.

THE following revised Directions for approaching the Sandheads are published for general information.

By order of the Offg. Supdt. of Marine,

FORT WILLIAM, } H. HOWE,
The 15th September 1856. } *Secretary.*

DIRECTIONS

FOR

APPROACHING THE SANDHEADS IN BOTH MONSOONS.

THE SOUTH-WEST MONSOON.

THE South-West Monsoon may be considered to commence on the 15th March, on which date the Pilot Vessels take up their station near the Buoy on the Pilot's Ridge as described below. The South-West Monsoon is over, by the end of September.

2nd. False Point Light House is in latitude $20^{\circ} 19\frac{1}{2}'$ North and longitude $86^{\circ} 47'$ East, and a Buoy is placed in $21\frac{1}{2}$ fathoms on the Pilot's Ridge, in latitude $20^{\circ} 49\frac{1}{2}'$ North and longitude $87^{\circ} 42'$ East, the Buoy therefore bears from False Point Light House North $59^{\circ} 49'$ East, true, and distant $59\frac{1}{2}$ miles.

3rd. A Vessel, therefore, after making the Light House at False Point (in passing which she ought not to go into less than 10 fathoms), should bring it to bear about West-South-West 10 or 15 miles distant, when she will be in 11 or 12 fathoms; then steer East-North-Eastward when the soundings will gradually increase to 23 fathoms on the Eastern edge of the Pilot's Ridge; she should then regulate her course so as to keep between the Ridge and 27 fathoms, when, by attention to the lead and nature of the soundings, course and distance run from the Light House, it is almost impossible to avoid making the Pilot Vessels, as their cruising ground is immediately to the North-East of the Light Vessel stationed during the South-West Monsoon in close proximity to the Buoy on the Ridge.

4th. The soundings to seaward of the Pilot's Ridge are, in general, a greenish or olive-colored mud, with occasionally a few bits of broken shells mixed with it; whilst those on the Ridge are of a shelly sand, or minute gravel, of a reddish or rusty brown color.

5th. Vessels approaching the Station are earnestly warned to be careful in avoiding collision when communicating with either the Light, or supplying Pilot Vessels; and, on making the former at night, they are strongly recommended to heave to, at a proper distance, till day-light, by which measure they will avoid the probability of passing the supplying Pilot Vessels in the darkness of the night.

6th. The Eastern Channel Light Vessel is in latitude $21^{\circ} 04'$ North and longitude $88^{\circ} 14'$ East, and therefore bears from the Buoy on the Pilot's Ridge, North $63^{\circ} 26'$ East, true; and distant $32\frac{1}{2}$ miles. The Eastern Channel Light Vessel, from the 15th March to the 15th September, burns a blue light every half hour and a maroon every quarter hour during the night, commencing at 7 P. M.; and her standing light is a plain light.

7th. The Pilot's Ridge Light Vessel shows from the 15th March to the 15th of September a plain standing light, and burns a blue light every hour and a maroon at the intermediate half hours.

8th. It is important to observe the difference as to the blue lights and maroons shown by the Eastern Channel and the Ridge Light respectively, as, if this is attended to, a Vessel, out in her reckoning, or uncertain of her position, cannot possibly mistake one for the other.

THE NORTH-EAST MONSOON.

9th. This Monsoon, which constitutes the fine season in the Head of the Bay of Bengal, is considered to commence in October and end in the beginning of March. During this season the Pilot Station is about the outer Floating Light situated in the Eastern Channel as above, and Vessels coming in should make directly for that mark. The Pilot Vessels cruise in the day time spreading East and West of, sometimes a little to the Southward of the Light Vessel, and at night anchor in positions not far from her. At this season she shows a maroon or torch-light every half hour and a blue light every hour.

WEDNESDAY, SEPTEMBER 24, 1856.

Legislative Council.

The 20th September 1856.

THE following Act, passed by the Legislative Council, received the assent of the Right Hon'ble the Governor General on the 19th September 1856, and is hereby promulgated for general information:—

ACT No. XIX OF 1856.

An Act to enable the Governor General of India in Council to suspend the operation of certain Acts relating to the Emigration of Native Laborers.

WHEREAS, by several Acts passed by the Governor General of India in Council, the emigration of Native Inhabitants of India to certain British Colonies is authorized, subject to certain regulations for the protection of such Emigrants; and whereas it is expedient that the Governor General of India in Council should have power, from time to time, to suspend any of the said Acts so far as they relate to emigration to any Colony or place in which the said Governor General in Council shall have reason to believe that proper measures have not been taken for the protection of the Emigrants immediately upon their arrival thereat or during their residence therein, or for their safe return at or near to the time at which the Government of such Colony or place was bound to find them a return passage to India: It is enacted as follows:—

I. Whenever the Governor General of India in Council shall have reason to believe that, in any Colony or place to which the emigration of Natives of India is allowed, proper measures have not been taken for the protection of such Emigrants immediately upon their arrival in such Colony or place or during their residence therein, or for their safe return to India, or to provide a return passage to India for any such Emigrants at or about the time at which they are entitled to such return passage, it shall be lawful for the said Governor General in Council, by notification in the *Calcutta Gazette*, to declare that the emigration of Natives of India to such Colony or place shall cease and be prohibited from a certain day to be specified in the notification.

II. After the notification shall have been so published, the operation of any Act by which the emigration of Natives of India to such Colony or place is allowed, shall be suspended from the day specified in the notification, so far as such Act authorizes emigration of Natives of India to such Colony or place; but such suspension shall not affect any act done, offence committed, or proceedings commenced before such suspension.

III. During the time of such suspension, any Act in force for the time being which prohibits the emigration of Natives of India, or the aiding or abetting of such emigration, or the making of any contract for labour to be performed by any Native of India out of the territories of the East India Com-

pany, shall take effect and be in force, so far as relates to the Colony or place specified in the notification, in the same manner and to the same extent as if the Act suspended had never been passed.

IV. Whenever the Governor General of India in Council shall be satisfied that, in the Colony or place specified in the notification, proper measures have been taken and will be adopted for the protection of Emigrants immediately upon their arrival thereat and during their residence therein, and for their safe return to India, and for providing return passages to India for such Emigrants at or near to the time at which they are entitled to such return passages, it shall be lawful for the said Governor General in Council to notify in the *Calcutta Gazette* that the emigration of Natives of India to such Colony shall be allowed from a day to be specified in such notification; and thereupon any Act which may have been suspended by virtue of this Act shall, from the day so specified, be revived and have the same force and effect as if it had not been suspended, except as to acts done, offences committed, and proceedings commenced during the time of such suspension.

I. It shall be lawful for the said Court of Judicature, whether sitting as a Court of Oyer and Terminer and Gaol delivery, or holding General or Quarter Sessions of the Peace, to sentence any person, convicted before it of an offence punishable with imprisonment and hard labor, or with imprisonment and solitary confinement during any portion or portions of such imprisonment, to be imprisoned in any Gaol or House of Correction within the said Settlement which the Governor of the said Settlement shall, by writing under his hand, declare to be fit for the reception of prisoners so sentenced.

II. Any person, who has heretofore been sentenced by the said Court of Judicature of Prince of Wales' Island, Singapore, and Malacca to be imprisoned for any term warranted by law in any Gaol or House of Correction in the said Settlement, shall be liable to be detained in such Gaol or House of Correction for so much of the said term of imprisonment as shall remain unexpired; and nothing heretofore done in conformity with any such sentence shall be called in question in any Court of Law.

III. Clause 2.—If there be several persons having distinct and separate interests in the matter in dispute, and they cannot agree in the appointment of an arbitrator on their behalf, it shall be competent to the Collector (subject to the orders of the Commissioner or other superior Revenue Authority) either to refer each of such distinct and separate interests to a separate arbitration, or to select any one of such persons whose interest appears to him of such a description as to qualify such person to represent the others; and the person so selected shall appoint an arbitrator on behalf of all the persons interested in the matter in dispute.

In every case the appointment shall be in writing, and neither of the parties to the arbitration shall have power to revoke the same without the consent of the other.

appointed, the arbitrators shall, before they enter upon the matter referred to them, nominate and appoint by writing a third person to act with them as arbitrator; and in case the arbitrators shall neglect to appoint such third person for a period of one week after having been required to do so, the Collector or other Officer shall appoint a third arbitrator.

XII. If any person, on being appointed an arbitrator, shall refuse to act, or, after accepting the appointment, shall die or become incapable of acting, another person shall be appointed in his stead, in the same manner in which the first person was appointed.

XIII. After the arbitrators have accepted the appointment, the Collector or other Officer shall be competent to exercise towards them such powers and authority for securing their attendance and the due completion of their award, as the Collector may legally exercise towards witnesses summoned before him when acting judicially for the purpose of compelling them to attend and give evidence.

XIV. If no award be made within a period to be fixed for that purpose by the Collector or other Officer, he may order that the matter shall be referred to another arbitrator or other arbitrators to be chosen in the same manner and subject to the same rules as the first.

XV. The Collector or other Officer shall furnish to the arbitrators, or so far as may be in his power procure for them, any information which his records or those of any public department may afford connected with the subject of enquiry. He shall, on the application of the arbitrators, summon any witnesses whom the arbitrators may call for and whom the parties may not be able to produce before them without such process, and require the persons so summoned to bring and produce before them all such books, papers, deeds, writings, maps, and plans as they shall require. He shall also cause the proper affirmation to be made by any witness whom the arbitrators may desire to examine upon affirmation, or he may empower the arbitrators to cause such affirmation to be made before them. Any witness who shall refuse or omit to appear when duly summoned by the Collector or other Officer, or who shall appear but shall refuse to make such affirmation, or who shall refuse to give evidence, shall be liable to the same punishment which would be incurred under the law by a witness refusing to appear or give evidence before the Collector when acting judicially. Any person giving intentionally and deliberately a false deposition under an affirmation, in any case referred to arbitration, as above, shall be held to be guilty of perjury, and shall be liable to the penalties prescribed for that offence by law.

XVI. On the close of the enquiry, the arbitrators or a majority of them shall deliver a full and complete award in respect of the matter referred to them, and shall therein specify (as the nature of the case may require) the amount and particulars of compensation awarded by them, the persons entitled thereto, and the proportions in which they are so entitled. The proceedings of the arbitration shall be deposited in the office of the Collector or other Officer, and every person interested therein shall be entitled to a copy of the award on plain paper under the seal and sig-

nature of the Collector or other Officer, which copy shall be *prima facie* evidence thereof.

XVII. When any land is taken under the provisions of this Act, the amount of compensation to be awarded shall include any damage which may be done thereby to any adjoining land.

XVIII. When any land taken under this Act forms part of an estate paying revenue to Government, the award shall specify the net rent of the land including the Government Revenue, and the computed value of such rent; and it shall be at the discretion of the Revenue Authorities, either to pay over the whole of such value to the owner of the estate on the condition of his continuing to pay the jumma thereof without abatement, or to determine what proportion of the net rent shall be allowed as a remission of revenue, in which case a deduction shall be made from the said value proportionate to the value of such remission.

XIX. If there exist any ground which, in the judgment of the Collector or other Officer, renders it improper to make immediate payment of the compensation, or of any portion thereof, to any of the persons having or claiming any interest in the land or in the compensation awarded in respect thereof, the amount, or such portion of the amount as he may deem sufficient, shall be invested in Government Securities, and held in deposit until an order of Court shall be obtained for the payment thereof.

XX. Upon the application by petition of any person claiming the amount so deposited, or any part thereof, any Court of competent jurisdiction may, in a summary way, order such money to be or to continue invested in Government Securities, or may order the distribution thereof, or payment of the interest thereof, according to the respective rights and interests of all persons making claim to such money or any part thereof, or may make such other order as the Court shall deem fit.

XXI. No award of arbitrators made under this Act, so far as regards the amount of compensation thereby awarded, shall be liable to be reversed or altered, except by the decision of a Civil Court on the ground of corruption or misconduct of the arbitrators, and in no case shall a suit to set aside an award under this Act be entertained unless it be instituted within three months from the date of the award. In case the award shall be reversed on the ground of corruption or misconduct of the arbitrators, the matter shall be referred to another arbitrator or other arbitrators to be appointed in the same manner as the first.

XXII. The provisions of this Act shall not be put in force for the purpose of acquiring a part only of any house or other building or manufactory, if the owner desire that the whole of such house, building, or manufactory shall be taken.

XXIII. Whenever any land is needed for a road, canal, railway, or the like, and the Local Government makes the declaration provided in Section II, it shall not be necessary to specify the extent, limits, or position of the land, but it shall be sufficient to declare the general direction of the line of the work and the average breadth of the land required for the same.

XXIV. When any declaration has been made under the provisions of Section II of this Act, any person authorized by Government in that behalf, with his servants and workmen, may enter upon the land for the purpose of making a survey thereof, and in the case of a road, canal, or railway, may set out the intended line thereof, and may mark such line by cutting a trench or placing land marks, and where otherwise the survey cannot be completed, and the line marked, may, with the sanction of the Government or of any Officer appointed by Government for this purpose, cut down and clear away any part of any jungle or tops of trees in the direction of the intended line. Provided that no person shall enter upon the curtilage of any house or any enclosed garden (unless with the consent of the occupier thereof) without previously giving the said occupier twenty-four hours' notice of his intention to do so.

XXV. It shall be the duty of the Officer so appointed by the Government to take account of all necessary damage done as aforesaid, that it may be allowed for in the compensation to be awarded.

XXVI. Whoever wilfully obstructs any person in lawfully setting out the line of any road, canal, or railway, or wilfully destroys, damages, or displaces any land-mark, or effaces or fills any trench intended to mark such line, shall, on conviction before a Magistrate, be liable to be imprisoned for any term not exceeding six months, or to fine not exceeding two hundred Rupees, or to both.

XXVII. The powers of this Act shall extend, in the case of any road, canal, or railway, to authorize the temporary occupation of any land not more than one hundred yards from the centre line of the road, canal, or railway, as marked on the ground, for taking earth or other materials for making or repairing the road, canal, or railway, or for depositing thereon superfluous earth or other materials, or erecting temporary buildings and work-shops thereon, or any land which may be needed for making temporary roads, from any public road to the intended line of railway; and for the temporary occupation of any such land, and for any permanent damage done by such occupation and use of the land, including the full value of all clay, stone, gravel, sand, and other materials taken thence, compensation shall be paid to and among all persons having an interest therein, to be ascertained, in case of disagreement, in the same manner as compensation for land permanently taken.

XXVIII. When any person, with the sanction of Government, shall undertake at his own cost any work of public utility, the Local Government may declare that any land required by such person for the execution of the work is needed for a public purpose, and thereupon such land may be taken under the provisions of this Act, and the Government may vest such land in such person on his paying the compensation awarded under this Act and all other expenses incurred in the acquisition of the land.

II. This Act shall extend to every Native Passenger Ship proceeding on any voyage (other than the voyages specified in Section XXV) from a port or place within the said territories to any other place whatsoever, whether within the said territories or not, where the duration of the voyage, to be prescribed as mentioned in Section XVII, shall exceed seven days.

III. No Native Passenger Ship shall depart upon any voyage to which this Act extends from any port or place within the said territories other than such ports and places as the local Government may, from time to time, appoint; and after the departure of any Native Passenger Ship upon any such voyage from a port or place so to be appointed, no person whatsoever shall be received on board as a passenger except at some other duly appointed port or place.

IV. No Native Passenger Ship shall depart upon any such voyage from any port or place appointed under this Act, until the Master shall have obtained a certificate from an Officer authorized to grant the same; nor until a bond shall have been entered into by the Master as provided in Section XXI.

V. If any Native Passenger Ship departs upon a voyage from any port or place within the said territories, or if any person shall be received as a passenger on board a Native Passenger Ship in contravention of the provisions of the last two preceding Sections, the Owner or Master shall be liable to a

penalty not exceeding one hundred Rupees for every passenger unlawfully received on board; and the Ship, if found within two years in any place within the said territories, may be seized and detained by any Chief Officer of Customs, until the penalties incurred under this Act have been adjudicated, and the payment thereof, with all costs, have been enforced under the provisions of Section XXXIII.

VI. The local Government shall determine the persons who shall be authorized to exercise or perform the powers and duties conferred or imposed by this Act.

VII. The Master of any Native Passenger Ship sailing from any port or place appointed under this Act shall give notice to the proper Officer that the Ship is to carry native passengers, and of her destination, and of the proposed day of sailing; such notice shall be given not less than seven days before the proposed day of sailing.

VIII. After receiving such notice, the Officer aforesaid, or any person authorized by him, shall be at liberty at all times to enter and inspect the Ship and the fittings, provisions, and stores therein; and any person impeding or refusing to allow such inspection, shall be liable, on conviction, to a penalty not exceeding five hundred Rupees for each offence.

IX. The Officer aforesaid may, if he think fit, cause the Ship to be surveyed at the expense of the Master by a competent surveyor, who shall report whether the Ship is, in his opinion, sea-worthy and fit for her intended voyage.

X. The Officer aforesaid shall not give his certificate unless he shall be satisfied—

1. That the Ship is sea-worthy and properly manned, equipped, fitted, and ventilated; and has not on board any cargo likely, from its quality, quantity, or mode of stowage, to prejudice the health or safety of the passengers.

2. That the space appropriated to the passengers in the between-decks contains at the least twelve superficial and seventy-two cubical feet of space for every adult passenger on board, that is to say, for every passenger above twelve years of age, and for every two passengers between the ages of one year and twelve years.

XII. The Master of any such Ship shall, before commencing his voyage, sign two lists, specifying as accurately as may be the names and ages of all the passengers, and shall deliver them to the Officer aforesaid, who shall thereupon (after having first mustered the passengers, and compared the number and names of such passengers with the lists) countersign and return to the Master one of such lists. The Master shall note in writing on such last-mentioned list, and on any additional list to be made under this Act, the date and supposed cause of death of any passenger who may die on the voyage, and shall forthwith on the arrival of the ship and before any passengers are landed, produce the list, with any additions thereto made, to any Chief Officer of Customs at any port in a British Colony, or to any person lawfully exercising Consular authority on behalf of Her Majesty in any Foreign port, or to any like Officer of Customs, or to the Officer (if any) appointed under this Act, at any port or place within the said territories at which the passengers or any of them shall be landed. In case of non-compliance with any of the requirements of this Section on the part of the Master, or if such lists shall be wilfully false, the Master shall be liable to a penalty not exceeding five hundred Rupees for each offence.

XIII. If, after the Ship shall have commenced her voyage, any additional passengers are taken on board at a port or place, within the said territories, appointed under this Act for the embarkation of passengers, or if such Ship shall, upon her voyage, touch or arrive at any such port, having previously received on board additional passengers at any place out of the said territories, the Master shall obtain a fresh certificate from the Officer at such port, and also lists of all such additional passengers shall be made; and all the provisions hereinbefore contained in that behalf shall be applicable to any certificate to be granted or any list to be made under this Section.

XV. The Chief Officer of Customs, or the Officer (if any) appointed under this Act, at any port or place within the said territories at which the Ship shall touch or arrive, shall forthwith transmit any particulars which he may deem important respecting the Ship and the passengers conveyed thereby and the requirements of this Act, to the Officer at the port from which the Ship commenced her voyage, and also to the Officer at any other port within the said territories where the passengers or any of them embarked.

XVI. In any proceeding under this Act or in respect of the bond hereby required, any document purporting to be a report of such particulars as are referred to in the last preceding Section, or a copy of the proceedings of any Court of Justice duly authen-

ticated, and also any like document purporting to be made and signed by any Chief Officer of Customs at any port in a British Colony or by any person lawfully exercising Consular authority on behalf of Her Majesty in any Foreign port, shall be received in evidence, if the same appears to have been officially transmitted to any Officer at or near the place where the proceeding under this Act is had.

XVIII. Every Native Passenger Ship at the time of departure from the port or place at which passengers shall be embarked under this Act, shall have on board good and wholesome provisions for the use and consumption of the passengers, over and above the victualling of the crew, to the amount or in the proportion following, that is to say, a supply of water to the amount of five gallons to every week of the computed voyage for every passenger on board, such water being carried in tanks or sweet casks, and a supply of rice, bread, biscuit, flour, oatmeal, or bread stuffs, to the amount of seven pounds' weight to every week of the computed voyage for every such passenger; provided always, that, when any such Ship shall be destined to call at a port or place in the course of her voyage for the purpose of filling up her water-casks, a supply of water at the rate before mentioned for every week of an average voyage to such port or place of calling shall be deemed to be a compliance with this Act. The provision of this Section regarding food shall be deemed to have been complied with in any case where it shall appear that, by the special authority of the local Government, any other articles of food were substituted for the articles above enumerated as being equivalent thereto.

XIX. The Master of any Native Passenger Ship shall, every day during the voyage, including the time of detention at any place before the termination thereof, issue to each passenger, or to the headman of each mess (if any), for the use of all the members thereof, provisions and water of the description and according to the provisions mentioned in the last preceding Section; and in case of non-compliance with any of the requirements of this Section, the Master shall be liable, on conviction, to a penalty not exceeding ten Rupees for each offence.

XX. The requirements of this Act respecting the issue of provisions shall not, except as to the issue of water, be applicable to any passenger who may have contracted to furnish his own provisions.

XXIII. If any Ship, bringing passengers into any port or place whatsoever within the said territories, shall have on board a greater number of passengers or persons than in the proportion prescribed by this Act, the Master of such Ship shall, in addition to any other penalty which he may have incurred under the provisions of this Act, be liable, on conviction, to a penalty not exceeding fifty Rupees for each person in excess of such proportion.

The Officer so appointed shall not grant such certificate, or suffer the same to remain in force, unless he is satisfied, by inspection or survey (to be made at least twice in each year at the expense of the Master or owner, and upon payment of a fee not exceeding twenty Rupees), that such Steam Vessel is seaworthy, and that the engines and machinery are in a fit state to enable her to proceed on her voyage. MEMO.

THE following revised Directions for approaching the Sandheads are published for general information.

By order of the Offg. Supdt. of Marine,

FORT WILLIAM, } H. HOWE,
The 15th September 1856. } Secretary.

DIRECTIONS

FOR

APPROACHING THE SANDHEADS IN BOTH MONSOONS.**THE SOUTH-WEST MONSOON.**

THE South-West Monsoon may be considered to commence on the 15th March, on which date the Pilot Vessels take up their station near the Buoy on the Pilot's Ridge as described below. The South-West Monsoon is over by the end of September.

2nd. False Point Light House is in latitude $20^{\circ} 19\frac{1}{2}'$ North and longitude $86^{\circ} 47'$ East, and a Buoy is placed in $21\frac{1}{2}$ fathoms on the Pilot's Ridge, in latitude $20^{\circ} 49\frac{1}{2}'$ North and longitude $87^{\circ} 42'$ East, the Buoy therefore bears from False Point Light House North $59^{\circ} 49'$ East, true, and distant $59\frac{1}{2}$ miles.

3rd. A Vessel, therefore, after making the Light House at False Point (in passing which she ought not to go into less than 10 fathoms), should bring it to bear about West-South-West 10 or 15 miles distant, when she will be in 11 or 12 fathoms; then steer East-North-Eastward when the soundings will gradually increase to 23 fathoms on the Eastern edge of the Pilot's Ridge; she should then regulate her course so as to keep between the Ridge and 27 fathoms, when, by attention to the lead

and nature of the soundings, course and distance run from the Light House, it is almost impossible to avoid making the Pilot Vessels, as their cruising ground is immediately to the North-East of the Light Vessel stationed during the South-West Monsoon in close proximity to the Buoy on the Ridge.

4th. The soundings to seaward of the Pilot's Ridge are, in general, a greenish or olive-colored mud, with occasionally a few bits of broken shells mixed with it; whilst those on the Ridge are of a shelly sand, or minute gravel, of a reddish or rusty brown color.

5th. Vessels approaching the Station are earnestly warned to be careful in avoiding collision when communicating with either the Light, or supplying Pilot Vessels; and, on making the former at night, they are strongly recommended to heave to, at a proper distance, till day-light, by which measure they will avoid the probability of passing the supplying Pilot Vessels in the darkness of the night.

6th. The Eastern Channel Light Vessel is in latitude $21^{\circ} 04'$ North and longitude $88^{\circ} 14'$ East, and therefore bears from the Buoy on the Pilot's Ridge, North $63^{\circ} 26'$ East, true; and distant $32\frac{1}{2}$ miles. The Eastern Channel Light Vessel, from the 15th March to the 15th September, burns a blue light every half hour and a maroon every quarter hour during the night, commencing at 7 P. M.; and her standing light is a plain light.

7th. The Pilot's Ridge Light Vessel shows from the 15th March to the 15th of September a plain standing light, and burns a blue light every hour and a maroon at the intermediate half hours.

8th. It is important to observe the difference as to the blue lights and maroons shown by the Eastern Channel and the Ridge Light respectively, as, if this is attended to, a Vessel, out in her reckoning, or uncertain of her position, cannot possibly mistake one for the other.

THE NORTH-EAST MONSOON.

9th. This Monsoon, which constitutes the fine season in the Head of the Bay of Bengal, is considered to commence in October and end in the beginning of March. During this season the Pilot Station is about the outer Floating Light situated in the Eastern Channel as above, and Vessels coming in should make directly for that mark. The Pilot Vessels cruise in the day time spreading East and West of, sometimes a little to the Southward of the Light Vessel, and at night anchor in positions not far from her. At this season she shows a maroon or torch-light every half hour and a blue light every hour.

Preamble.
Native Inhabitants of India to certain British Colonies is authorized, subject to certain regulations for the protection of such Emigrants; and whereas it is expedient that the Governor General of India in Council should have power, from time to time, to suspend any of the said Acts so far as they relate to emigration to any Colony or place in which the said Governor General in Council shall have reason to believe that proper measures have not been taken for the protection of the Emigrants immediately upon their arrival thereat or during their residence therein, or for their safe return at or near to the time at which the Government of such Colony or place was bound to find them a return passage to India: It is enacted as follows:—

I. Whenever the Governor General of India in Council shall have reason to believe that, in any Colony or place to which the emigration of Natives of India is allowed, proper measures have not been taken for the protection of such Emigrants immediately upon their arrival in

such Colony or place or during their residence therein, or for their safe return to India, or to provide a return passage to India for any such Emigrants at or about the time at which they are entitled to such return passage, it shall be lawful for the said Governor General in Council, by notification in the *Calcutta Gazette*, to declare that the emigration of Natives of India to such Colony or place shall cease and be prohibited from a certain day to be specified in the notification.

II. Legislative Council.

The 20th September 1856.

THE following Bill was read a second time in the Legislative Council on the 20th September 1856, and was referred to a Select Committee who are to report thereon after the 24th of December next:—

A Bill to authorize the arrest and detention, within the Ports of the Settlement of Prince of Wales Island, Singapore, and Malacca, of Junks or Native Vessels suspected to be piratical.

WHEREAS there is reason to believe that certain Junks periodically visit the Ports of the said Settlement, ostensibly for the purposes of trade, but in reality to equip, arm, and fit themselves out for the purpose of making piratical attacks on peaceful trading Vessels, in the vicinity of the Straits of Malacca, and elsewhere: It is hereby enacted as follows:—

I. The Chief Resident Civil Authority of any Station of the said Settlement may, by an order in writing signed by him, at any time and as often as he shall deem it expedient, direct any public Officer to proceed on board any Junk or other Native Vessel being in any Port or place within the limits of the said Station, and to search such vessel, and to take an account of the armament thereof, and to make such further and other enquiry and investigation into the objects, pursuits, and movements of the Master or person in charge of such Junk or Vessel as the said Chief Civil Authority shall think fit; and any person who shall hinder, obstruct, or in any wise prevent such search, investigation, or enquiry, or shall obstruct such public Officer, or any person acting in his aid or assistance, in the discharge of his duty—shall, on conviction before a Magistrate of Police, be liable to a fine not exceeding five hundred Rupees, or to imprisonment, with or without hard labor, for a term not exceeding six calendar months, or to both.

II. Whenever it shall be proved, by oath or affirmation, to the satisfaction of the Chief Resident Civil Authority of any of the said Stations, that there is reasonable cause to suspect that any

Junk or Vessel in any Port or place within the limits of the said Station is a piratical Vessel, or belongs to pirates, or is intended to be used for piratical purposes or for the purpose of trading with or supplying pirates, he may, by an order in writing signed by him, cause such Junk or Vessel, together with her tackle, apparel, and furniture, arms, stores, and ammunition, and the goods and merchandize laden therein, or any portion thereof, to be seized and detained.

III. Whenever any such Junk or Vessel, furniture, arms, stores, ammunition, goods, or merchandize, shall be seized and detained under the provisions of this Act, the Chief Resident Civil Authority shall report the circumstance, as soon as possible, to the Governor of the said Settlement, who shall give orders as to the detention or release of such Junk or Vessel or other things so seized or detained.

IV. The Chief Resident Civil Authority at any of the said Stations may, by order in writing signed by him, summon the Master, or person in charge, and any of the Crew, of any such Junk or Vessel which

he may have reasonable cause to suspect as aforesaid, or any other person, to attend before him, and to produce any document in his possession, and may examine such persons upon oath or affirmation to be administered by him, touching any matter which may appear to be material for the purpose of ascertaining whether the said Vessel is a piratical Vessel or belongs to pirates, or is intended to be used as aforesaid. Every person so summoned, who refuses or neglects to attend or make answer, or to produce any document in his possession, concerning the matters hereby authorized to be inquired into, or who wilfully gives false evidence or otherwise misbehaves in giving or refusing to give evidence, shall be liable, on conviction before a Magistrate of Police, to a fine not exceeding five hundred Rupees, or to imprisonment, with or without hard labor, for a term not exceeding six calendar months, or to both.

V. No Vessel or other thing seized or detained in pursuance of the provisions herein contained, and no property on board thereof, shall be detained for a longer period than six months, unless within that time proceedings shall have been commenced for the condemnation thereof.

VI. Whenever it shall be made to appear to the satisfaction of the Chief Resident Civil Authority of any of the said Stations, that there are reasonable grounds to suspect that any Junk or Native Vessel is about to proceed to Sea from any Port or place within the said Station so manned, armed, equipped, furnished, or fitted out, as to afford reasonable ground to suspect that the said Vessel is intended for piratical purposes, it shall be lawful for the said Chief Civil Authority to take such measures as may be necessary or proper to prevent such Vessel from proceeding to Sea from such Port or place, so long as the same is manned, armed, equipped, furnished, or fitted out beyond what he may deem sufficient for the due navigation and protection thereof as a Trading Vessel.

Penalty for Master or Crew refusing or neglecting to attend as witnesses, or giving false evidence.

No Vessel or property to be detained beyond six months, unless proceedings have been commenced within that time.

Suspected vessels not to leave Port with increased armament, &c.

Seizure and detention of any Junk or Native Vessel suspected to be piratical.

VII. No damages shall be recovered for the seizure or detention of any Vessel or other thing in pursuance of this Act, if it shall appear that there were reasonable grounds to suspect that the Vessel or other thing so seized or detained was piratical, or belonged to any pirate or pirates, or was intended to be used for piratical purposes or for the purpose of trading with or supplying pirates; but whenever any Vessel or other thing shall be seized or detained under the provisions of this Act, proceedings may be taken in any Admiralty or Vice-Admiralty Court having jurisdiction over the place where the seizure was made, or in any division of such Court, for the condemnation or for the restitution of such Vessel or other thing; and if, in such proceeding, it shall appear to the Court that such Vessel or other thing was piratical, or belonged to pirates, or was intended to be used for piratical purposes or for the purpose of trading with or supplying pirates, the same shall be forfeited and condemned without a previous conviction of the owner or of any other person of the crime of piracy.

The Governor General in Council is pleased to publish for general information the following Rules and revised Tariff of Transit Duties leviable within the Rewah State:—

The following Rules and Tariff of Transit Duties (Zakat,) leviable within the Rewah State, have been fixed, as arranged by Lieutenant Helbert, Officiating Political Assistant in Bundelcund and Rewah, and the Government of His Highness the Maha Rajah Ragho Raj Sing Jodeo Bahadoor, Chief of Rewah, and are not to be deviated from in any particular, but under the sanction and approval of the Agent Governor General for Central India:

Article I.—Four Chowkees will be established, one on the Allahabad Road, another on the Mirzapore Road, a third at Rewah Khas, and the fourth on the Jubbulpore Road.

Article II.—Any trader or merchant proceeding from Allahabad or Mirzapore towards Jubbulpore, or *vice versa*, will be stopped only at two places at the Frontier and at Rewah Khas for the payment of Duties. Article III.—Any trader entering the line at any intermediate point will have to pay the Duties fixed for the two Chowkees. As for instance, a merchant coming from Raipore to Rewah with goods will have to pay the Duty payable between Hanooman and Rewah.

Article IV.—Any trader, desirous of paying at the first Chowkee the amount of Duty due for the whole line from the Hanooman to the Jurnah Nullah Chowkees, will be at liberty so to do; the Daroga of such a Chowkee will give him a Receipt for the whole amount and a Pass which the trader will have to show at the other Chowkees.

Article V.—Traders willing to pay separately at each Chowkee will be at liberty so to do; in that case the Jemadar of each Chowkee will give a Receipt and a Pass on payment of the Duty.

Article VI.—A copy of the Tariff will be put up in Oordoo and Hindee at each Chowkee.

Article VII.—Officials of the Rewah Government will be stationed at the four Chowkees to collect Duties according to the Tariff.

Article VIII.—Any party attempting to smuggle dutiable articles will, on conviction, be liable to such punishment as the Chief of Rewah will adjudge, information of the same being given to the Agent; the property thus detected being kept under sequestration, or released on security, till a reply from the Agent be received.

Article IX.—Any party aiding and abetting in the act of smuggling, or making an effort thereto, will also, on conviction, be liable to punishment.

Article X.—Any Official of the Customs Department (Purmut) in Rewah, taking more than the fixed amount of Duties, or charging any article not in the Tariff with Duty, will, on the trader's complaining and conviction, be liable to a fine of 200 Rupees and imprisonment with labor for six months.

Article XI.—Any Officials of the Customs Department (Zakat) in Rewah, maltreating or subjecting to violence, in the way of extortion not authorized by the Tariff, any merchant-traveller, will, on conviction, be liable to a fine of 500 Rupees and imprisonment with labor for two years; all such cases being disposed of by the Rewah Government, and reported to the Agent Governor General and the Political Assistant.

Article XII.—His Highness the Maha Rajah will appoint a (Moontazim) Superintendent for the management of the Customs Department and all business belonging thereto.

Article XIII.—Any Zemindar, Jagheedar, or other individual under the Government of Rewah, levying Duties on goods, but for the Rewah Government, or in any way offering violence to traders, will be liable to a fine of 1,000 Rupees and three years' imprisonment.

Article XIV.—Any merchant or trader having to bring forward complaints relating to over-charge, &c., will have to prefer them in the Court of the Manager of the State, "Moontazim Rasut," who will forthwith dispose of the case brought to his notice.

Article XV.—Any complaints as to excesses in merchants and traders being subjected to an over-charge of Duties beyond the prescribed rates, preferred against the Rewah Officials, not being enquired into and provided for by the Chief, and the collection of the Customs falling into mismanagement, will leave the British Government the power of making proper arrangements for the said collections; the surplus, after an account of the expenses incurred in the collections is made, being, at the end of each year, or every six months, payable to the Rewah Government.

Madras Exhibition of 1857.

NOTIFICATION.

THE Right Honorable the President and Members of the Committee for the Madras Exhibition of 1857 have the honor to announce, that Articles from all Countries will be admitted to the Madras Exhibition, to be held in the beginning of 1857, and be allowed to compete for Prizes; but, with a view to promote the good of this Country, it is hereby notified that Money Prizes, Medals, &c. will only be given for Articles capable of being applied in the Arts and Manufactures of India, or calculated to be of use to its people.

It will be necessary that each Local Committee attend to the following points:—Each Article sent for Exhibition must be (1) distinctly labelled, and the label must (2) set forth the district or locality from which the Article is sent; (3) the name of the Exhibitor; and (4) the price of the Article. Each Local Committee will also state in their Invoice List, how each article they send is to be disposed of at the close of the Exhibition, in the event of its not having been sold for the price put upon it by the Exhibitor.

The several Local Committees will consider themselves at liberty to add to their numbers such influential Natives of their District as they may consider likely to aid them in promoting the objects in view.

It would greatly facilitate the accurate performance of the duties of the General Committee if the Local Committees and the Exhibitors when addressing communications on the subject of the Exhibition would adhere to the official form of communication; or, in case of the non-official or private form being adopted, if they would so mark the letter, or such portions of it, in case of the letter being of a mixed nature, as may be intended to be private or non-official.

MEMO.

THE following revised Directions for approaching the Sandheads are published for general information.

By order of the Offg. Supdt. of Marine,

FORT WILLIAM, }
The 15th September 1856. }

H. HOWE,
Secretary.

DIRECTIONS

FOR

APPROACHING THE SANDHEADS IN BOTH MONSOONS.

THE SOUTH-WEST MONSOON.

THE South-West Monsoon may be considered to commence on the 15th March, on which date the Pilot Vessels take up their station near the Buoy on the Pilot's Ridge as described below. The South-West Monsoon is over by the end of September.

2nd. False Point Light House is in latitude $20^{\circ} 19\frac{1}{2}'$ North and longitude $86^{\circ} 47'$ East, and a Buoy is placed in $21\frac{1}{2}$ fathoms on the Pilot's Ridge, in latitude $20^{\circ} 49\frac{1}{2}'$ North and longitude $87^{\circ} 42'$ East, the Buoy therefore bears from False Point Light House North $59^{\circ} 49'$ East, true, and distant $59\frac{1}{2}$ miles.

3rd. A Vessel, therefore, after making the Light House at False Point (in passing which she ought not to go into less than 10 fathoms), should bring it to bear about West-South-West 10 or 15 miles distant, when she will be in 11 or 12 fathoms; then steer East-North-Eastward when the soundings will gradually increase to 23 fathoms on the Eastern edge of the Pilot's Ridge; she should then regulate her course so as to keep between the Ridge and 27 fathoms, when, by attention to the lead and nature of the soundings, course and distance run from the Light House, it is almost impossible to avoid making the Pilot Vessels, as their cruising ground is immediately to the North-East of the Light Vessel stationed during the South-West Monsoon in close proximity to the Buoy on the Ridge.

4th. The soundings to seaward of the Pilot's Ridge are, in general, a greenish or olive-colored mud, with occasionally a few bits of broken shells mixed with it; whilst those on the Ridge are of a shelly sand, or minute gravel, of a reddish or rusty brown color.

5th. Vessels approaching the Station are earnestly warned to be careful in avoiding collision when communicating with either the Light, or supplying Pilot Vessels; and, on making the former at night, they are strongly recommended to heave to, at a proper distance, till day-light, by which measure they will avoid the probability of passing the supplying Pilot Vessels in the darkness of the night.

6th. The Eastern Channel Light Vessel is in latitude $21^{\circ} 04'$ North and longitude $88\frac{1}{2}^{\circ} 14'$ East, and therefore bears from the Buoy on the Pilot's Ridge, North $63^{\circ} 26'$ East, true; and distant $32\frac{1}{2}$ miles. The Eastern Channel Light Vessel, from the 15th March to the 15th September, burns a

blue light every half hour and a maroon every quarter hour during the night, commencing at 7 P. M.; and her standing light is a plain light.

7th. The Pilot's Ridge Light Vessel shows from the 15th March to the 15th of September a plain standing light, and burns a blue light every hour and a maroon at the intermediate half hours.

8th. It is important to observe the difference as to the blue lights and maroons shown by the Eastern Channel and the Ridge Light respectively, as, if this is attended to, a Vessel, out in her reckoning, or uncertain of her position, cannot possibly mistake one for the other.

THE NORTH-EAST MONSOON.

9th. This Monsoon, which constitutes the fine season in the Head of the Bay of Bengal, is considered to commence in October and end in the beginning of March. During this season the Pilot Station is about the outer Floating Light situated in the Eastern Channel as above, and Vessels coming in should make directly for that mark. The Pilot Vessels cruise in the day time spreading East and West of, sometimes a little to the Southward of the Light Vessel, and at night anchor in positions not far from her. At this season she shows a maroon or torch-light every half hour and a blue light every hour.

An Act to enable the Governor General of India in Council to suspend the operation of certain Acts relating to the Emigration of Native Laborers.

WHEREAS, by several Acts passed by the Governor General of India in Council, the emigration of

Native Inhabitants of India to certain British Colonies is authorized, subject to certain regulations for the protection of such Emigrants; and whereas it is expedient that the Governor General of India in Council should have power, from time to time, to suspend any of the said Acts so far as they relate to emigration to any Colony or place in which the said Governor General in Council shall have reason to believe that proper measures have not been taken for the protection of the Emigrants immediately upon their arrival thereat or during their residence therein, or for their safe return at or near to the time at which the Government of such Colony or place was bound to find them a return passage to India: It is enacted as follows:—

I. Whenever the Governor General of India in Council shall have reason to believe that, in any Colony or place to which the emigration of Natives of India is allowed, proper measures have not been taken for the protection of such Emigrants immediately upon their arrival in

such Colony or place or during their residence therein, or for their safe return to India, or to provide a return passage to India for any such Emigrants at or about the time at which they are entitled to such return passage, it shall be lawful for the said Governor General in Council, by notification in the *Calcutta Gazette*, to declare that the emigration of Natives of India to such Colony or place shall cease and be prohibited from a certain day to be specified in the notification.

II. WHEREAS there is reason to believe that certain Junks periodically visit the Ports of the said Settlement, ostensibly for the purposes of trade, but in reality to equip, arm, and fit themselves out for the purpose of making piratical attacks on peaceful trading Vessels, in the vicinity of the Straits of Malacca, and elsewhere: It is hereby enacted as follows:—

I. The Chief Resident Civil Authority of any

Penalty for obstructing search or enquiry ordered by the Chief Resident Civil Authority in respect of any Junk or Native Vessel.

Station of the said Settlement may, by an order in writing signed by him, at any time and as often as he shall deem it expedient, direct any public Officer to proceed on board any Junk or other Native Vessel being in any Port or place within the limits of the said Station, and to search such vessel, and to take an account of the armament thereof, and to make such further and other enquiry and investigation into the objects, pursuits, and movements of the Master or person in charge of such Junk or Vessel as the said Chief Civil Authority shall think fit; and any person who shall hinder, obstruct, or in any wise prevent such search, investigation, or enquiry, or shall obstruct such public Officer, or any person acting in his aid or assistance, in the discharge of his duty—shall, on conviction before a Magistrate of Police, be liable to a fine not exceeding five hundred Rupees, or to imprisonment, with or without hard labor, for a term not exceeding six calendar months, or to both.

II. Whenever it shall be proved, by oath or affirmation, to the satisfaction of the Chief Resident Civil Authority of any of the said Stations, that there is reasonable cause to suspect that any

III. Whenever any such Junk or Vessel, fur-

IV. The Chief Resident Civil Authority at any

Penalty for Master or Crew refusing or neglecting to attend as witnesses, or giving false evidence.

of the said Stations may, by order in writing signed by him, summon the Master, or person in charge, and any of the Crew, of any such Junk or Vessel which

he may have reasonable cause to suspect as aforesaid, or any other person, to attend before him, and to produce any document in his possession, and may examine such persons upon oath or affirmation to be administered by him, touching any matter which may appear to be material for the purpose of ascertaining whether the said Vessel is a piratical Vessel or belongs to pirates, or is intended to be used as aforesaid. Every person so summoned, who refuses or neglects to attend or make answer, or to produce any document in his possession, concerning the matters hereby authorized to be inquired into, or who wilfully gives false evidence or otherwise misbehaves in giving or refusing to give evidence, shall be liable, on conviction before a Magistrate of Police, to a fine not exceeding five hundred Rupees, or to imprisonment, with or without hard labor, for a term not exceeding six calendar months, or to both.

in pursuance of the provisions herein contained, and no property on board thereof, shall be detained for a longer period than six months, unless within that time proceedings shall have been commenced for the condemnation thereof.

VI. Whenever it shall be made to appear to

Suspected vessels not to leave Port with increased armament, &c.

the satisfaction of the Chief Resident Civil Authority of any of the said Stations, that there are reasonable grounds to suspect that any Junk or Native Vessel is about to proceed to Sea from any Port or place within the said Station so manned, armed, equipped, furnished, or fitted out, as to afford reasonable ground to suspect that the said Vessel is intended for piratical purposes, it shall be lawful for the said Chief Civil Authority to take such measures as may be necessary or proper to prevent such Vessel from proceeding to Sea from such Port or place, so long as the same is manned, armed, equipped, furnished, or fitted out beyond what he may deem sufficient for the due navigation and protection thereof as a Trading Vessel.

VII. No damages shall be recovered for the seizure or detention of any Vessel or other thing in pursuance of this Act, if it shall appear that there were reasonable grounds to suspect that the Vessel or other thing so seized or detained was piratical, or belonged to any pirate or pirates, or was intended to be used for piratical purposes or for the purpose of trading with or supplying pirates; but whenever any Vessel or other thing shall be seized or detained under the provisions of this Act, proceedings may be taken in any Admiralty or Vice-Admiralty Court having jurisdiction over the place where the seizure was made, or in any division of such Court, for the condemnation or for the restitution of such Vessel or other thing; and if, in such proceeding, it shall appear to the Court that such Vessel or other thing was piratical, or belonged to pirates, or was intended to be used for piratical purposes or for the purpose of trading with or supplying pirates, the same shall be forfeited and condemned without a previous conviction of the owner or of any other person of the crime of piracy.

Madras Exhibition of 1857.**NOTIFICATION.**

THE Right Honorable the President and Members of the Committee for the Madras Exhibition of 1857 have the honor to announce, that Articles from all Countries will be admitted to the Madras Exhibition, to be held in the beginning of 1857, and be allowed to compete for Prizes; but, with a view to promote the good of this Country, it is hereby notified, that Money Prizes, Medals, &c. will only be given for Articles capable of being applied in the Arts and Manufactures of India, or calculated to be of use to its people.

It will be necessary that each Local Committee attend to the following points:—Each Article sent for Exhibition must be (1) distinctly labelled, and the label must (2) set forth the district or locality from which the Article is sent; (3) the name of the Exhibitor; and (4) the price of the Article. Each Local Committee will also state in their Invoice List, how each article they send is to be disposed of at the close of the Exhibition, in the event of its not having been sold for the price put upon it by the Exhibitor.

The several Local Committees will consider themselves at liberty to add to their numbers such influential Natives of their District as they may consider likely to aid them in promoting the objects in view.

It would greatly facilitate the accurate performance of the duties of the General Committee if the Local Committees and the Exhibitors when addressing communications on the subject of the Exhibition would adhere to the official form of communication; or, in case of the non-official or private form being adopted, if they would so mark the letter, or such portions of it, in case of the letter being of a mixed nature, as may be intended to be private or non-official.

Secretary, Madras Exhibition.

No. 5800.
Marine Court.

AT a Marine Court assembled on Wednesday, the Twentieth day of August, One-thousand Eight-hundred and Fifty-six, under Act XXIV. of 1845, Mr. Mate Pilot C. G. Smyth was tried on the following Charge:—

CHARGE.

Mr. Mate Pilot C. G. Smyth placed under arrest on the following Charge:—

For breach of duty in the following instance:

That he, having received orders to go on board the Hon'ble Company's Steamer *Sesostri*, (then off Kidderpore,) on the morning of the 10th instant, and proceed by her to relieve the Sandheads Cruizing Station, then in great want of Pilots for Ships detained outside, did, without any reasonable cause, and in wilful disobedience of those orders, and in gross neglect of duty, quit that Vessel immediately after he had repaired on board, and returned to Calcutta, without orders or permission to do so from the Master Attendant.

By order, &c.,

(Signed) H. HOWE,
Secretary.

FORT WILLIAM, }
The 15th August 1856. }

FINDING.

The Court having maturely weighed and considered the evidence brought forward in support of the prosecution, together with that adduced on the defence, is of opinion that the defendant, Mr. C. G. Smyth, Mate Pilot, is *Guilty* of the Charge preferred against him, with exception of the words "without any reasonable cause."

SENTENCE.

The Court having found Mr. C. G. Smyth *Guilty* as above specified, do adjudge that Mr. C. G. Smyth, Mate Pilot, do lose one step in rank, and that his name do stand in the list of Mate Pilots below that of Mr. B. Bensley and above that of Mr. G. Lord.

President,

Judge Advocate.

REMARKS BY THE COURT.

The Court beg to remark in awarding the above Sentence, which, it is informed, is the most lenient that the offence admits of, that it would recommend the case to the consideration of Government as one deserving of mitigation, inasmuch as the proceedings show that the conduct of the defendant was actuated by an opinion prevalent in the Service (founded on a letter from a former Master Attendant to an individual member of the Service which was not admitted in evidence,) that a Pilot could not leave a Ship in the absence of proper accommodation, an impression which the Court considers should be removed without loss of time.

The Court would further beg to remark in this case, that there seems by the evidence to have been but little disposition shown to carry out the orders of the Marine Department to make the Pilots as comfortable as circumstances would admit of whilst on board the *Sesostri*; the recommendation, as shown by the evidence, was certainly not attended to, and the Court would respectfully submit that an enquiry should be instituted into it.

And in conclusion the Court would suggest that the accommodation to be granted to Pilots proceeding down to the Sandheads hereafter should be more clearly defined.

(Signed) H. PIDDINGTON,
President.

2. The proceedings having been submitted to Government, the Hon'ble the Lieutenant-Governor of Bengal has been pleased to confirm the Sentence of the Court, accompanied by the following remarks on the case:—

No. 538.

FROM

THE JUNIOR SECRETARY TO THE
GOVERNMENT OF BENGAL,

TO

THE OFFG. SUPDT. OF MARINE.
Dated Fort William, the 23rd Sept. 1856.

MARINE.
SIR,

I am directed to acknowledge the receipt of your letter No. 5172, dated the 2nd instant,

submitting the proceedings in the trial of Mr. Mate Pilot C. G. Smyth, charged with disobedience of orders and neglect of duty, in that having received orders to proceed from Calcutta on the Steamer *Sesostri* to the Sandheads to supply the want of Pilots at the Cruizing Station, he, without any reasonable cause, left the Steamer immediately after he had repaired on board, without orders or permission to do so.

2nd. The Court have found Mr. Smyth guilty of the charge, with the exception of the words "without any reasonable cause," and have sentenced him to lose one step in rank, adding their recommendation that the case is one deserving of mitigation, to which representation you are unable to give your support.

3rd. I am directed to inform you that the Lieutenant-Governor confirms the Sentence which the Court has passed on Mr. Smyth, viz., the loss of one step in rank in the list of Pilots.

4th. In forwarding the proceedings of the Court, you have offered the following remarks:—

"I cannot but regard Mr. Smyth's excuse as 'frivolous in the extreme, and his conduct in 'leaving the Steamer, after he had been ordered 'to proceed on her on duty, as utterly inexcusable."

"For a nautical man, when ordered on duty, to 'make objections to that accommodation which is 'used by passengers of every class at all seasons 'of the year, and preferred by parties having 'cabins even in gales of wind, as is familiar to 'every one who has gone down to Moulmein on 'our vessels, is I consider a disgraceful pretext for 'evading duty."

5th. In the above opinion, the Lieutenant Governor entirely concurs.

6th. The remarks of the President of the Court on the grossly contemptuous and insubordinate tone of the replies of Mr. Branch Pilot Porter, when examined as a witness by the Court, will be duly noticed hereafter.

I have, &c.,

(Signed) C. T. BUCKLAND,

Junior Secy. to the Govt. of Bengal.

In conformity with the above decision, the Officiating Master Attendant has been desired to release Mr. Mate Pilot C. G. Smyth from arrest, and to allow him to return to his duty, and to place his name in the list of Mate Pilots below that of Mr. B. Bensley and above that of Mr. G. Lord.

By order of the Officiating Superintendent of of Marine,

H. HOWE,
Secretary.

No. 5802.

Marine Court.

At a Marine Court assembled on Friday, the Twelfth day of September, One-thousand Eight-hundred and Fifty-six, under Act XXIV. of 1845, Mr. Branch Pilot John Peter Trevor Porter was tried on the following Charges:—

CHARGES.

For breach of duty in the following instances:—

First.—For highly improper and insubordinate conduct at Calcutta on the 8th of July last, in having then sent to the Officiating Master

Attendant a written refusal to comply with an established Rule of the Pilot Service, according to which it was his duty to provide a suitable mess for the Running Officers who might repair on board the Pilot Vessel he was in command of.

Second.—That he having been allowed the option of withdrawing his letter of the 8th of July, did, on the 9th idem, refuse to do so in a disrespectful and insubordinate manner.

Third.—That he having, under orders from Government, been directed by the Officiating Master Attendant to take command of the Pilot Vessel *Coleroon*, and prepare her in all respects for her cruise, including the provision of a suitable mess for the Officers, did, on the 21st August last, in wilful disobedience of those orders, refuse to do so, the wording of such refusal being in the highest degree insubordinate and disrespectful.

Such conduct in a Senior Officer, tending to the subversion of discipline, being calculated by its pernicious example to give rise to a spirit of contumacious insubordination amongst the members of the Pilot Service.

By order of the Officiating Superintendent of Marine,

(Signed) H. HOWE,
Secretary.

FORT WILLIAM, }
The 6th September 1856. }

FINDING.

The Court having maturely weighed and considered the evidence brought forward in support of the prosecution, together with that adduced upon the defence, is of opinion that Mr. Branch Pilot John Peter Trevor Porter is

Guilty of the first instance of the Charge,

Guilty of the second instance of the Charge,

with exception of the word "disrespectful," and

Guilty of the third instance of the Charge.

(Signed) H. PIDDINGTON,
President.

SENTENCE.

The Court having found the defendant *Guilty* as above specified, do adjudge him, Mr. Branch Pilot John Peter Trevor Porter, to lose one step in rank, and his name do stand below that of Mr. William Laing and above that of Mr. Thomas Smart in the list of Branch Pilots.

(Signed) H. PIDDINGTON,
President.

(Signed) THOMAS HILL,
Judge Advocate.

2. The proceedings having been submitted to Government, the subjoined letter, from the Junior Secretary to the Government of Bengal, conveys the decision of His Honor the Lieutenant-Governor on the case:—

No. 537.

FROM

THE JUNIOR SECRETARY TO THE
GOVERNMENT OF BENGAL,

TO

THE OFFG. SUPDT. OF MARINE

Dated Fort William, the 26th Sept. 1856.

MARINE.
SIR,

I am directed to acknowledge the receipt of your letter No. 5528, dated the 17th instant,

submitting, with your remarks, the proceedings on the trial of Mr. Branch Pilot Porter, held before a Marine Court on the following Charges:—

First.—For highly improper and insubordinate conduct at Calcutta on the 8th July last, in having then sent to the Officiating Master Attendant a written refusal to comply with an established Rule of the Pilot Service, according to which it was his duty to provide a suitable mess for the Running Officers who might repair on board the Pilot Vessel he was in command of.

Second.—That he having been allowed the option of withdrawing his letter of the 8th July, did, on the 9th idem, refuse to do so in a disrespectful and insubordinate manner.

Third.—That he having, under orders from Government, been directed by the Officiating Master Attendant to take command of the Pilot Vessel *Coleroon*, and prepare her in all respects for her cruise, including the provision of a suitable mess for the Officers, did, on the 21st August last, in wilful disobedience of those orders, refuse to do so, the wording of such refusal being in the highest degree insubordinate and disrespectful; such conduct in a Senior Officer tending to the subversion of discipline, being calculated by its pernicious example to give rise to a spirit of contumacious insubordination amongst the members of the Pilot Service.

2nd. The Court have found Mr. Porter guilty of the First Charge, guilty of the Second Charge, with the exception of the word “disrespectful,” and guilty of the Third Charge, and they have sentenced him to the loss of one step in rank.

3rd. You observe that “this sentence reduces Mr. Porter to the rank of an Acting Branch Pilot, as he had only just received his promotion before his offence was committed, for which he was brought to trial, and as Mr. Branch Pilot Strevens has officially intimated his intention of retiring from the Service at the end of this month, should he carry his intention into execution, Mr. Porter will be immediately placed in the same position as he was before the trial, with the exception of being Junior on the list of Branch Pilots to one who previously stood below him; but there is nothing superior in the position of a man once on the list of Branch Pilots, whether he stands at the top or at the bottom of the list, so that the interests of Justice have not been in the slightest degree vindicated by this Sentence, although the Finding has been for the guilt of the accused.”

4th. As the Sentence passed upon Mr. Porter appears to the Lieutenant-Governor, under the circumstances represented by you, to be practically a nullity, His Honor is unable to approve or confirm it under Section XVIII. Act XXIV. of 1845. The case will be immediately submitted for the orders of the Hon’ble Court of Directors, and in the meantime Mr. Porter will remain under suspension as he is at present.

I have, &c.,

(Signed) C. T. BUCKLAND,
Junior Secy. to the Govt. of Bengal.

3. The Officiating Master Attendant has accordingly been directed to give effect to the order regarding Mr. Porter’s suspension.

MEMO.

THE following revised Directions for approaching the Sandheads are published for general information.

By order of the Offg. Supdt. of Marine,

FORT WILLIAM, } H. HOWE,
The 15th September 1856. } *Secretary.*

DIRECTIONS

FOR

APPROACHING THE SANDHEADS IN BOTH MONSOONS.

THE SOUTH-WEST MONSOON.

THE South-West Monsoon may be considered to commence on the 15th March, on which date the Pilot Vessels take up their station near the Buoy on the Pilot’s Ridge as described below. The South-West Monsoon is over by the end of September.

2nd. False Point Light House is in latitude $20^{\circ} 19'$ North and longitude $86^{\circ} 47'$ East, and a Buoy is placed in $21\frac{1}{2}$ fathoms on the Pilot’s Ridge, in latitude $20^{\circ} 49\frac{1}{2}'$ North and longitude $87^{\circ} 42'$ East, the Buoy therefore bears from False Point Light House North $59^{\circ} 49'$ East, true, and distant $59\frac{1}{2}$ miles.

3rd. A Vessel, therefore, after making the Light House at False Point (in passing which she ought not to go into less than 10 fathoms), should bring it to bear about West-South-West 10 or 15 miles distant, when she will be in 11 or 12 fathoms; then steer East-North-Eastward when the soundings will gradually increase to 23 fathoms on the Eastern edge of the Pilot’s Ridge; she should then regulate her course so as to keep between the Ridge and 27 fathoms, when, by attention to the lead and nature of the soundings, course and distance run from the Light House, it is almost impossible to avoid making the Pilot Vessels, as their cruising ground is immediately to the North-East of the Light Vessel stationed during the South-West Monsoon in close proximity to the Buoy on the Ridge.

4th. The soundings to seaward of the Pilot’s Ridge are, in general, a greenish or olive-colored mud, with occasionally a few bits of broken shells mixed with it; whilst those on the Ridge are of a shelly sand, or minute gravel, of a reddish or rusty brown color.

5th. Vessels approaching the Station are earnestly warned to be careful in avoiding collision when communicating with either the Light, or supplying Pilot Vessels; and, on making the former at night, they are strongly recommended to heave to, at a proper distance, till day-light, by which measure they will avoid the probability of passing the supplying Pilot Vessels in the darkness of the night.

6th. The Eastern Channel Light Vessel is in latitude $21^{\circ} 04'$ North and longitude $88\frac{1}{4}^{\circ} 14'$ East, and therefore bears from the Buoy on the Pilot’s Ridge, North $63^{\circ} 26'$ East, true; and distant $32\frac{1}{2}$ miles. The Eastern Channel Light Vessel, from the 15th March to the 15th September, burns a

blue light every half hour and a maroon every quarter hour during the night, commencing at 7 P. M. ; and her standing light is a plain light.

7th. The Pilot's Ridge Light Vessel shows from the 15th March to the 15th of September a plain standing light, and burns a blue light every hour and a maroon at the intermediate half hours.

8th. It is important to observe the difference as to the blue lights and maroons shown by the Eastern Channel and the Ridge Light respectively, as, if this is attended to, a Vessel, out in her reckoning, or uncertain of her position, cannot possibly mistake one for the other.

THE NORTH-EAST MONSOON.

9th. This Monsoon, which constitutes the fine season in the Head of the Bay of Bengal, is considered to commence in October and end in the beginning of March. During this season the Pilot Station is about the outer Floating Light situated in the Eastern Channel as above, and Vessels coming in should make directly for that mark. The Pilot Vessels cruize in the day time spreading East and West of, sometimes a little to the Southward of the Light Vessel, and at night anchor in positions not far from her. At this season she shows a maroon or torch-light every half hour and a blue light every hour.

Madras Exhibition of 1857.**NOTIFICATION.**

THE Right Honorable the President and Members of the Committee for the Madras Exhibition of 1857 have the honor to announce, that Articles from all Countries will be admitted to the Madras Exhibition, to be held in the beginning of 1857, and be allowed to compete for Prizes; but, with a view to promote the good of this Country, it is hereby notified that Money Prizes, Medals, &c. will only be given for Articles capable of being applied in the Arts and Manufactures of India, or calculated to be of use to its people.

It will be necessary that each Local Committee attend to the following points:—Each Article sent for Exhibition must be (1) distinctly labelled, and the label must (2) set forth the district or locality from which the Article is sent; (3) the name of the Exhibitor; and (4) the price of the Article. Each Local Committee will also state in their Invoice List, how each article they send is to be disposed of at the close of the Exhibition, in the event of its not having been sold for the price put upon it by the Exhibitor.

The several Local Committees will consider themselves at liberty to add to their numbers such influential Natives of their District as they may consider likely to aid them in promoting the objects in view.

It would greatly facilitate the accurate performance of the duties of the General Committee if the Local Committees and the Exhibitors when addressing communications on the subject of the Exhibition would adhere to the official form of communication; or, in case of the non-official or private form being adopted, if they would so mark the letter, or such portions of it, in case of the letter being of a mixed nature, as may be intended to be private or non-official.

Secretary, Madras Exhibition.

MEMO.

THE following revised Directions for approaching the Sandheads are published for general information.

By order of the Offg. Supdt. of Marine,
FORT WILLIAM, } H. HOWE,
The 15th September 1856. } *Secretary.*

DIRECTIONS

FOR

APPROACHING THE SANDHEADS IN BOTH MONSOONS.

THE SOUTH-WEST MONSOON.

THE South-West Monsoon may be considered to commence on the 15th March, on which date the Pilot Vessels take up their station near the Buoy on the Pilot's Ridge as described below. The South-West Monsoon is over by the end of September.

2nd. False Point Light House is in latitude $20^{\circ} 19' 1/2$ North and longitude $86^{\circ} 47'$ East, and a Buoy is placed in $21\frac{1}{2}$ fathoms on the Pilot's Ridge, in latitude $20^{\circ} 49\frac{1}{2}'$ North and longitude $87^{\circ} 42'$ East, the Buoy therefore bears from False Point Light House North $59^{\circ} 49'$ East, true, and distant $59\frac{1}{2}$ miles.

3rd. A Vessel, therefore, after making the Light House at False Point (in passing which she ought not to go into less than 10 fathoms), should bring it to bear about West-South-West 10 or 15 miles distant, when she will be in 11 or 12 fathoms; then steer East-North-Eastward when the soundings will gradually increase to 23 fathoms on the Eastern edge of the Pilot's Ridge; she should then regulate her course so as to keep between the Ridge and 27 fathoms, when, by attention to the lead and nature of the soundings, course and distance run from the Light House, it is almost impossible to avoid making the Pilot Vessels, as their cruising ground is immediately to the North-East of the Light Vessel stationed during the South-West Monsoon in close proximity to the Buoy on the Ridge.

4th. The soundings to seaward of the Pilot's Ridge are, in general, a greenish or olive-colored mud, with occasionally a few bits of broken shells mixed with it; whilst those on the Ridge are of a shelly sand, or minute gravel, of a reddish or rusty brown color.

5th. Vessels approaching the Station are earnestly warned to be careful in avoiding collision when communicating with either the Light, or supplying Pilot Vessels; and, on making the former at night, they are strongly recommended to heave to, at a proper distance, till day-light, by which measure they will avoid the probability of passing the supplying Pilot Vessels in the darkness of the night.

6th. The Eastern Channel Light Vessel is in latitude $21^{\circ} 04'$ North and longitude $88\frac{1}{2}^{\circ} 14'$ East, and therefore bears from the Buoy on the Pilot's Ridge, North $63^{\circ} 26'$ East, true; and distant $32\frac{1}{2}$ miles. The Eastern Channel Light Vessel, from the 15th March to the 15th September, burns a blue light every half hour and a maroon every quarter hour during the night, commencing at 7 P. M.; and her standing light is a plain light.

7th. The Pilot's Ridge Light Vessel shows from the 15th March to the 15th of September a plain standing light, and burns a blue light every hour and a maroon at the intermediate half hours.

8th. It is important to observe the difference as to the blue lights and maroons shown by the Eastern Channel and the Ridge Light respectively, as, if this is attended to, a Vessel, out in her reckoning, or uncertain of her position, cannot possibly mistake one for the other.

THE NORTH-EAST MONSOON.

9th. This Monsoon, which constitutes the fine season in the Head of the Bay of Bengal, is considered to commence in October and end in the beginning of March. During this season the Pilot Station is about the outer Floating Light situated in the Eastern Channel as above, and Vessels coming in should make directly for that mark. The Pilot Vessels cruise in the day time spreading East and West of, sometimes a little to the Southward of the Light Vessel, and at night anchor in positions not far from her. At this season she shows a maroon or torch-light every half hour and a blue light every hour.

Madras Exhibition of 1857.

NOTIFICATION.

THE Right Honorable the President and Members of the Committee for the Madras Exhibition of 1857 have the honor to announce, that Articles from all Countries will be admitted to the Madras Exhibition, to be held in the beginning of 1857, and be allowed to compete for Prizes; but, with a view to promote the good of this Country, it is hereby notified that Money Prizes, Medals, &c. will only be given for Articles capable of being applied in the Arts and Manufactures of India, or calculated to be of use to its people.

It will be necessary that each Local Committee attend to the following points:—Each Article sent for Exhibition must be (1) distinctly labelled, and the label must (2) set forth the district or locality from which the Article is sent; (3) the name of the Exhibitor; and (4) the price of the Article. Each Local Committee will also state in their Invoice List, how each article they send is to be disposed of at the close of the Exhibition, in the event of its not having been sold for the price put upon it by the Exhibitor.

The several Local Committees will consider themselves at liberty to add to their numbers such influential Natives of their District as they may consider likely to aid them in promoting the objects in view.

It would greatly facilitate the accurate performance of the duties of the General Committee if the Local Committees and the Exhibitors when addressing communications on the subject of the Exhibition would adhere to the official form of communication; or, in case of the non-official or private form being adopted, if they would so mark the letter, or such portions of it, in case of the letter being of a mixed nature, as may be intended to be private or non-official.

MEMO.

THE following revised Directions for approaching the Sandheads are published for general information.

By order of the Offg. Supdt. of Marine,
FORT WILLIAM, } H. HOWE,
The 15th September 1856. } *Secretary.*

DIRECTIONS

FOR

APPROACHING THE SANDHEADS IN BOTH MONSOONS.

THE SOUTH-WEST MONSOON.

THE South-West Monsoon may be considered to commence on the 15th March, on which date the Pilot Vessels take up their station near the Buoy on the Pilot's Ridge as described below. The South-West Monsoon is over by the end of September.

2nd. False Point Light House is in latitude $20^{\circ} 19'$ North and longitude $86^{\circ} 47'$ East, and a Buoy is placed in $21\frac{1}{2}$ fathoms on the Pilot's Ridge, in latitude $20^{\circ} 49'$ North and longitude $87^{\circ} 42'$ East, the Buoy therefore bears from False Point Light House North $59^{\circ} 49'$ East, true, and distant $59\frac{1}{2}$ miles.

3rd. A Vessel, therefore, after making the Light House at False Point (in passing which she ought not to go into less than 10 fathoms), should bring it to bear about West-South-West 10 or 15 miles distant, when she will be in 11 or 12 fathoms; then steer East-North-Eastward when the soundings will gradually increase to 23 fathoms on the Eastern edge of the Pilot's Ridge; she should then regulate her course so as to keep between the Ridge and 27 fathoms, when, by attention to the lead and nature of the soundings, course and distance run from the Light House, it is almost impossible to avoid making the Pilot Vessels, as their cruising ground is immediately to the North-East of the Light Vessel stationed during the South-West Monsoon in close proximity to the Buoy on the Ridge.

4th. The soundings to seaward of the Pilot's Ridge are, in general, a greenish or olive-colored mud, with occasionally a few bits of broken shells mixed with it; whilst those on the Ridge are of a shelly sand, or minute gravel, of a reddish or rusty brown color.

5th. Vessels approaching the Station are earnestly warned to be careful in avoiding collision when communicating with either the Light, or supplying Pilot Vessels; and, on making the former at night, they are strongly recommended to heave to, at a proper distance, till day-light, by which measure they will avoid the probability of passing the supplying Pilot Vessels in the darkness of the night.

6th. The Eastern Channel Light Vessel is in latitude $21^{\circ} 04'$ North and longitude $88\frac{1}{2}^{\circ} 14'$ East, and therefore bears from the Buoy on the Pilot's Ridge, North $63^{\circ} 26'$ East, true; and distant $32\frac{1}{2}$ miles. The Eastern Channel Light Vessel, from the 15th March to the 15th September, burns a blue light every half hour and a maroon every quarter hour during the night, commencing at 7 P. M.; and her standing light is a plain light

7th. The Pilot's Ridge Light Vessel shows from the 15th March to the 15th of September a plain standing light, and burns a blue light every hour and a maroon at the intermediate half hours.

8th. It is important to observe the difference as to the blue lights and maroons shown by the Eastern Channel and the Ridge Light respectively, as, if this is attended to, a Vessel, out in her reckoning, or uncertain of her position, cannot possibly mistake one for the other.

THE NORTH-EAST MONSOON.

9th. This Monsoon, which constitutes the fine season in the Head of the Bay of Bengal, is considered to commence in October and end in the beginning of March. During this season the Pilot Station is about the outer Floating Light situated in the Eastern Channel as above, and Vessels coming in should make directly for that mark. The Pilot Vessels cruise in the day time spreading East and West of, sometimes a little to the Southward of the Light Vessel, and at night anchor in positions not far from her. At this season she shows a maroon or torch-light every half hour and a blue light every hour.

Madras Exhibition of 1857.

NOTIFICATION.

THE Right Honorable the President and Members of the Committee for the Madras Exhibition of 1857 have the honor to announce, that Articles from all Countries will be admitted to the Madras Exhibition, to be held in the beginning of 1857, and be allowed to compete for Prizes; but, with a view to promote the good of this Country, it is hereby notified that Money Prizes, Medals, &c. will only be given for Articles capable of being applied in the Arts and Manufactures of India, or calculated to be of use to its people.

It will be necessary that each Local Committee attend to the following points:—Each Article sent for Exhibition must be (1) distinctly labelled, and the label must (2) set forth the district or locality from which the Article is sent; (3) the name of the Exhibitor; and (4) the price of the Article. Each Local Committee will also state in their Invoice List, how each article they send is to be disposed of at the close of the Exhibition, in the event of its not having been sold for the price put upon it by the Exhibitor.

The several Local Committees will consider themselves at liberty to add to their numbers such influential Natives of their District as they may consider likely to aid them in promoting the objects in view.

It would greatly facilitate the accurate performance of the duties of the General Committee if the Local Committees and the Exhibitors when addressing communications on the subject of the Exhibition would adhere to the official form of communication; or, in case of the non-official or private form being adopted, if they would so mark the letter, or such portions of it, in case of the letter being of a mixed nature, as may be intended to be private or non-official.

EDWARD BALFOUR,

Secretary, Madras Exhibition.

MEMO.

THE following revised Directions for approaching the Sandheads are published for general information.

By order of the Offg. Supdt. of Marine,

FORT WILLIAM,
The 15th September 1856.

H. HOWE,
Secretary.

DIRECTIONS

FOR

APPROACHING THE SANDHEADS IN BOTH MONSOONS.

THE SOUTH-WEST MONSOON.

THE South-West Monsoon may be considered to commence on the 15th March, on which date the Pilot Vessels take up their station near the Buoy on the Pilot's Ridge as described below. The South-West Monsoon is over by the end of September.

2nd. False Point Light House is in latitude $20^{\circ} 19\frac{1}{2}'$ North and longitude $86^{\circ} 47'$ East, and a Buoy is placed in $21\frac{1}{2}$ fathoms on the Pilot's Ridge, in latitude $20^{\circ} 49\frac{1}{2}'$ North and longitude $87^{\circ} 42'$ East, the Buoy therefore bears from False Point Light House North $59^{\circ} 49'$ East, true, and distant $59\frac{1}{2}$ miles.

3rd. A Vessel, therefore, after making the Light House at False Point (in passing which she ought not to go into less than 10 fathoms), should bring it to bear about West-South-West 10 or 15 miles distant, when she will be in 11 or 12 fathoms; then steer East-North-Eastward when the soundings will gradually increase to 23 fathoms on the Eastern edge of the Pilot's Ridge; she should then regulate her course so as to keep between the Ridge and 27 fathoms, when, by attention to the lead and nature of the soundings, course and distance run from the Light House, it is almost impossible to avoid making the Pilot Vessels, as their cruising ground is immediately to the North-East of the Light Vessel stationed during the South-West Monsoon in close proximity to the Buoy on the Ridge.

4th. The soundings to seaward of the Pilot's Ridge are, in general, a greenish or olive-colored mud, with occasionally a few bits of broken shells mixed with it; whilst those on the Ridge are of a shelly sand, or minute gravel, of a reddish or rusty brown color.

5th. Vessels approaching the Station are earnestly warned to be careful in avoiding collision when communicating with either the Light, or supplying Pilot Vessels; and, on making the former at night, they are strongly recommended to heave to, at a proper distance, till day-light, by which measure they will avoid the probability of passing the supplying Pilot Vessels in the darkness of the night.

6th. The Eastern Channel Light Vessel is in latitude $21^{\circ} 04'$ North and longitude $88\frac{1}{2}^{\circ} 14'$ East, and therefore bears from the Buoy on the Pilot's Ridge, North $63^{\circ} 26'$ East, true; and distant $32\frac{1}{2}$ miles. The Eastern Channel Light Vessel, from the 15th March to the 15th September, burns a blue light every half hour and a maroon every quarter hour during the night, commencing at 7 P. M.; and her standing light is a plain light.

7th. The Pilot's Ridge Light Vessel shows from the 15th March to the 15th of September a plain standing light, and burns a blue light every hour and a maroon at the intermediate half hours.

8th. It is important to observe the difference as to the blue lights and maroons shown by the Eastern Channel and the Ridge Light respectively, as, if this is attended to, a Vessel, out in her reckoning, or uncertain of her position, cannot possibly mistake one for the other.

THE NORTH-EAST MONSOON.

9th. This Monsoon, which constitutes the fine season in the Head of the Bay of Bengal, is considered to commence in October and end in the beginning of March. During this season the Pilot Station is about the outer Floating Light situated in the Eastern Channel as above, and Vessels coming in should make directly for that mark. The Pilot Vessels cruize in the day time spreading East and West of, sometimes a little to the Southward of the Light Vessel, and at night anchor in positions not far from her. At this season she shows a maroon or torch-light every half hour and a blue light every hour.

Each Local Committee will also state in their Invoice List, how each article they send is to be disposed of at the close of the Exhibition, in the event of its not having been sold for the price put upon it by the Exhibitor.

The several Local Committees will consider themselves at liberty to add to their numbers such influential Natives of their District as they may consider likely to aid them in promoting the objects in view.

It would greatly facilitate the accurate performance of the duties of the General Committee if the Local Committees and the Exhibitors when addressing communications on the subject of the Exhibition would adhere to the official form of communication; or, in case of the non-official or private form being adopted, if they would so mark the letter, or such portions of it, in case of the letter being of a mixed nature, as may be intended to be private or non-official.

MEMO.

THE following revised Directions for approaching the Sandheads are published for general information.

By order of the Offg. Supdt. of Marine,
FORT WILLIAM, } H. HOWE,
The 15th September 1856. } *Secretary.*

DIRECTIONS

FOR

APPROACHING THE SANDHEADS IN BOTH MONSOONS.

THE SOUTH-WEST MONSOON.

THE South-West Monsoon may be considered to commence on the 15th March, on which date the Pilot Vessels take up their station near the Buoy on the Pilot's Ridge as described below. The South-West Monsoon is over by the end of September.

2nd. False Point Light House is in latitude $20^{\circ} 19\frac{1}{2}'$ North and longitude $86^{\circ} 47'$ East, and a Buoy is placed in $21\frac{1}{2}$ fathoms on the Pilot's Ridge, in latitude $20^{\circ} 49\frac{1}{2}'$ North and longitude $87^{\circ} 42'$ East, the Buoy therefore bears from False Point Light House North $59^{\circ} 49'$ East, true, and distant $59\frac{1}{2}$ miles.

3rd. A Vessel, therefore, after making the Light House at False Point (in passing which she ought not to go into less than 10 fathoms), should bring it to bear about West-South-West 10 or 15 miles distant, when she will be in 11 or 12 fathoms; then steer East-North-Eastward when the soundings will gradually increase to 23 fathoms on the Eastern edge of the Pilot's Ridge; she should then regulate her course so as to keep between the Ridge and 27 fathoms, when, by attention to the lead and nature of the soundings, course and distance run from the Light House, it is almost impossible to avoid making the Pilot Vessels, as their cruising ground is immediately to the North-East of the Light Vessel stationed during the South-West Monsoon in close proximity to the Buoy on the Ridge.

4th. The soundings to seaward of the Pilot's Ridge are, in general, a greenish or olive-colored mud, with occasionally a few bits of broken shells mixed with it; whilst those on the Ridge are of a shelly sand, or minute gravel, of a reddish or rusty brown color.

5th. Vessels approaching the Station are earnestly warned to be careful in avoiding collision when communicating with either the Light, or supplying Pilot Vessels; and, on making the former at night, they are strongly recommended to heave to, at a proper distance, till day-light, by which measure they will avoid the probability of passing the supplying Pilot Vessels in the darkness of the night.

6th. The Eastern Channel Light Vessel is in latitude $21^{\circ} 04'$ North and longitude $88\frac{1}{2}^{\circ} 14'$ East, and therefore bears from the Buoy on the Pilot's Ridge, North $63^{\circ} 26'$ East, true; and distant $32\frac{1}{2}$ miles. The Eastern Channel Light Vessel, from the 15th March to the 15th September, burns a blue light every half hour and a maroon every quarter hour during the night, commencing at 7 P. M.; and her standing light is a plain light.

7th. The Pilot's Ridge Light Vessel shows from the 15th March to the 15th of September a plain standing light, and burns a blue light every hour and a maroon at the intermediate half hours.

8th. It is important to observe the difference as to the blue lights and maroons shown by the Eastern Channel and the Ridge Light respectively, as, if this is attended to, a Vessel, out in her reckoning, or uncertain of her position, cannot possibly mistake one for the other.

THE NORTH-EAST MONSOON.

9th. This Monsoon, which constitutes the fine season in the Head of the Bay of Bengal, is considered to commence in October and end in the beginning of March. During this season the Pilot Station is about the outer Floating Light situated in the Eastern Channel as above, and Vessels coming in should make directly for that mark. The Pilot Vessels cruize in the day time spreading East and West of, sometimes a little to the Southward of the Light Vessel, and at night anchor in positions not far from her. At this season she shows a maroon or torch-light every half hour and a blue light every hour.

Madras Exhibition of 1857.

NOTIFICATION.

THE Right Honorable the President and Members of the Committee for the Madras Exhibition of 1857 have the honor to announce, that Articles from all Countries will be admitted to the Madras Exhibition, to be held in the beginning of 1857, and be allowed to compete for Prizes; but, with a view to promote the good of this Country, it is hereby notified that Money Prizes, Medals, &c. will only be given for Articles capable of being applied in the Arts and Manufactures of India, or calculated to be of use to its people.

It will be necessary that each Local Committee attend to the following points:—Each Article sent for Exhibition must be (1) distinctly labelled, and the label must (2) set forth the district or locality from which the Article is sent; (3) the name of the Exhibitor; and (4) the price of the Article. Each Local Committee will also state in their Invoice List, how each article they send is to be disposed of at the close of the Exhibition, in the event of its not having been sold for the price put upon it by the Exhibitor.

The several Local Committees will consider themselves at liberty to add to their numbers such influential Natives of their District as they may consider likely to aid them in promoting the objects in view.

It would greatly facilitate the accurate performance of the duties of the General Committee if the Local Committees and the Exhibitors when addressing communications on the subject of the Exhibition would adhere to the official form of communication; or, in case of the non-official or private form being adopted, if they would so mark the letter, or such portions of it, in case of the letter being of a mixed nature, as may be intended to be private or non-official.

MEMO.

THE following revised Directions for approaching the Sandheads are published for general information.

By order of the Offg. Supdt. of Marine,
FORT WILLIAM, } H. HOWE,
The 15th. September 1856. } *Secretary.*

DIRECTIONS

FOR

APPROACHING THE SANDHEADS IN BOTH MONSOONS.

THE SOUTH-WEST MONSOON.

THE South-West Monsoon may be considered to commence on the 15th March, on which date the Pilot Vessels take up their station near the Buoy on the Pilot's Ridge as described below. The South-West Monsoon is over by the end of September.

2nd. False Point Light House is in latitude $20^{\circ} 19\frac{1}{2}'$ North and longitude $86^{\circ} 47'$ East, and a Buoy is placed in $21\frac{1}{2}$ fathoms on the Pilot's Ridge, in latitude $20^{\circ} 49\frac{1}{2}'$ North and longitude $87^{\circ} 42'$ East, the Buoy therefore bears from False Point Light House North $59^{\circ} 49'$ East, true, and distant $59\frac{1}{2}$ miles.

3rd. A Vessel, therefore, after making the Light House at False Point (in passing which she ought not to go into less than 10 fathoms), should bring it to bear about West-South-West 10 or 15 miles distant, when she will be in 11 or 12 fathoms; then steer East-North-Eastward when the soundings will gradually increase to 23 fathoms on the Eastern edge of the Pilot's Ridge; she should then regulate her course so as to keep between the Ridge and 27 fathoms, when, by attention to the lead and nature of the soundings, course and distance run from the Light House, it is almost impossible to avoid making the Pilot Vessels, as their cruising ground is immediately to the North-East of the Light Vessel stationed during the South-West Monsoon in close proximity to the Buoy on the Ridge.

4th. The soundings to seaward of the Pilot's Ridge are, in general, a greenish or olive-colored mud, with occasionally a few bits of broken shells mixed with it; whilst those on the Ridge are of a shelly sand, or minute gravel, of a reddish or rusty brown color.

5th. Vessels approaching the Station are earnestly warned to be careful in avoiding collision when communicating with either the Light, or supplying Pilot Vessels; and, on making the former at night, they are strongly recommended to heave to, at a proper distance, till day-light, by which measure they will avoid the probability of passing the supplying Pilot Vessels in the darkness of the night.

6th. The Eastern Channel Light Vessel is in latitude $21^{\circ} 04'$ North and longitude $88\frac{1}{2}^{\circ} 14'$ East, and therefore bears from the Buoy on the Pilot's Ridge, North $63^{\circ} 26'$ East, true; and distant $32\frac{1}{2}$ miles. The Eastern Channel Light Vessel, from the 15th March to the 15th September, burns a blue light every half hour and a maroon every quarter hour during the night, commencing at 7 P. M.; and her standing light is a plain light.

7th. The Pilot's Ridge Light Vessel shows from the 15th March to the 15th of September a plain standing light, and burns a blue light every hour and a maroon at the intermediate half hours.

8th. It is important to observe the difference as to the blue lights and maroons shown by the Eastern Channel and the Ridge Light respectively, as, if this is attended to, a Vessel, out in her reckoning, or uncertain of her position, cannot possibly mistake one for the other.

THE NORTH-EAST MONSOON.

9th. This Monsoon, which constitutes the fine season in the Head of the Bay of Bengal, is considered to commence in October and end in the beginning of March. During this season the Pilot Station is about the outer Floating Light situated in the Eastern Channel as above, and Vessels coming in should make directly for that mark. The Pilot Vessels cruise in the day time spreading East and West of, sometimes a little to the Southward of the Light Vessel, and at night anchor in positions not far from her. At this season she shows a maroon or torch-light every half hour and a blue light every hour.

Extract from the Proceedings of the A. and H. Society of India for July 1856.

PREMIA FOR ARTICLES OF RAW PRODUCE AND FOR ESSAYS.

Read the following Report of the Special Committee, appointed at the March Meeting to arrange the details for the offer of premia for certain objects :—

In accordance with the resolution noted in the margin, your Committee, having carefully considered the subject referred to them for report, now beg to annex a list of premia for certain objects, and for Essays on certain subjects ; as also a list of rules of competition for the Prize Essays.

In addition to the objects detailed in this list, your Committee took several others into consideration on which they beg to offer the following remarks :—

1st.—*Fibre of Sida rhomboides*.—Referring to the recent correspondence with the Chamber of Commerce at Dundee respecting this fibre, and to the fact of its cultivation being so very limited, the Committee would recommend that the experiment made last year at the Society's Garden be repeated this season on an extended scale, and that the Prize which was included in the rough draft be kept in abeyance, pending the result of such experiment.

2nd.—*Munjeet*.—That a Prize for the communication of a good and economic mode of preparing this article for shipment, with the view of preserving the quality of the dye—be also kept in abeyance pending the result of a reference, which the Committee suggest should be made to the London Society of Arts respecting the Indian Garancine which Mr. Henley submitted to this Society in 1853.

3rd.—*Quinine-yielding Plants*.—The Committee being under the impression that any sum the Society could offer for the introduction of these valuable plants, would be inadequate,—beg to recommend that another communication on the subject be made to the Government of India, in continuation of that preferred in 1852, and that the Gold Medal be added to any reward the Government may be disposed to offer to the introducer of a given number, not less than 20, of South American Cinchonas of the kind or kinds known to yield the best description of bark.

4th.—*Substitute for Quinine*.—Your Committee also took this subject into consideration, but as it is exciting a considerable degree of attention at the present time, they have not deemed it necessary to include it in the list of premia.

5th.—*New Granada Paddy*.—A suggestion was made by a Member of your Committee to offer a reward for the production of a certain quantity of this description of Paddy, which yields more than

two crops in one year, and for information as to the soil best adapted for its cultivation, cost, &c. ; but after due consideration it was deemed desirable not to include it in the present list, but merely to record the fact of the question having been brought forward, with a view to its re-discussion at a future period.

6th.—*Drying process Sugar* (see Communication from Mr. Henley—Journal Vol. VIII). This subject was also introduced, but it being the general opinion that there is not, at present, sufficient data to entertain it, it was agreed that enquiries be made for further information, on receipt of which a supplementary Report can be submitted.

Your Committee beg to recommend that these Prizes be open to competition to the 31st December 1857, and further, that copies of the lists annexed be sent to the Secretaries of the Agricultural and Horticultural Societies of Madras, Bombay, and the Punjab, and that they be requested to make them as widely known as practicable in their respective Presidencies.

DIRECTIONS

FOR

APPROACHING THE SANDHEADS IN BOTH
MONSOONS.

THE SOUTH-WEST MONSOON.

THE South-West Monsoon may be considered to commence on the 15th March, on which date the Pilot Vessels take up their station near the Buoy on the Pilot's Ridge as described below. The South-West Monsoon is over by the end of September.

2nd. False Point Light House is in latitude $20^{\circ} 19\frac{1}{2}'$ North and longitude $86^{\circ} 47'$ East, and a Buoy is placed in $21\frac{1}{2}$ fathoms on the Pilot's Ridge, in latitude $20^{\circ} 49\frac{1}{2}'$ North and longitude $87^{\circ} 42'$ East, the Buoy therefore bears from False Point Light House North $59^{\circ} 49'$ East, true, and distant $59\frac{1}{2}$ miles.

3rd. A Vessel, therefore, after making the Light House at False Point (in passing which she ought not to go into less than 10 fathoms), should bring it to bear about West-South-West 10 or 15 miles distant, when she will be in 11 or 12 fathoms; then steer East-North-Eastward when the soundings will gradually increase to 23 fathoms on the Eastern edge of the Pilot's Ridge; she should then regulate her course so as to keep between the Ridge and 27 fathoms, when, by attention to the lead and nature of the soundings, course and distance run from the Light House, it is almost impossible to avoid making the Pilot Vessels, as their cruising ground is immediately to the North-East of the Light Vessel stationed during the South-West Monsoon in close proximity to the Buoy on the Ridge.

4th. The soundings to seaward of the Pilot's Ridge are, in general, a greenish or olive-colored mud, with occasionally a few bits of broken shells mixed with it; whilst those on the Ridge are of a shelly sand, or minute gravel, of a reddish or rusty brown color.

5th. Vessels approaching the Station are earnestly warned to be careful in avoiding collision when communicating with either the Light, or supplying Pilot Vessels; and, on making the former at night, they are strongly recommended to heave to, at a proper distance, till day-light, by which measure they will avoid the probability of passing the supplying Pilot Vessels in the darkness of the night.

6th. The Eastern Channel Light Vessel is in latitude $21^{\circ} 04'$ North and longitude $88\frac{1}{2}^{\circ} 14'$ East, and therefore bears from the Buoy on the Pilot's Ridge, North $63^{\circ} 26'$ East, true; and distant $32\frac{1}{4}$ miles. The Eastern Channel Light Vessel, from the 15th March to the 15th September, burns a blue light every half hour and a maroon every quarter hour during the night, commencing at 7 P. M.; and her standing light is a plain light.

7th. The Pilot's Ridge Light Vessel shows from the 15th March to the 15th of September a plain standing light, and burns a blue light every hour and a maroon at the intermediate half hours.

8th. It is important to observe the difference as to the blue lights and maroons shown by the Eastern Channel and the Ridge Light respectively, as, if this is attended to, a Vessel, out in her reckoning, or uncertain of her position, cannot possibly mistake one for the other.

THE NORTH-EAST MONSOON.

9th. This Monsoon, which constitutes the fine season in the Head of the Bay of Bengal, is considered to commence in October and end in the beginning of March. During this season the Pilot Station is about the outer Floating Light situated in the Eastern Channel as above, and Vessels coming in should make directly for that mark. The Pilot Vessels cruise in the day time spreading East and West of, sometimes a little to the Southward of the Light Vessel, and at night anchor in positions not far from her. At this season she shows a maroon or torch-light every half hour and a blue light every hour.

SAILING DIRECTIONS FOR ENTERING THE HARBOUR OF DALHOUSIE.

Latitude..... 16° 7' 00" N.
Longitude..... 94° 27' 00" E.

1st.—Vessels, of 14 feet draft and upwards, should, on no account, attempt the passage to the Westward of Negrais Island.

2nd.—Vessels coming from the Southward should bring Diamond Island to bear North-West then steer for it until the Fairway Buoy is visible, which is situated 1½ mile North-East of the Island. Steer North North-East from this Buoy until Black Buoy bears East, then North-East by North.

3rd.—Vessels entering from the Westward, in Latitude North of Diamond Island, should bring it to bear South-East, steer in for it until the Fairway Buoy is made, then proceed as above directed for vessels entering from the Southward. This passage, however, should be attempted by sailing vessels only in the North-East Monsoon.

4th.—Vessels unable from stress of weather to distinguish the different marks, should anchor under Diamond Island where good anchorage and smooth water is to be found.

Lieutenant Ward's Chart of the Bassein River is an excellent guide, and vessels provided with them scarcely need Pilots.

The following Buoys are now laid for the guidance of Commanders and Masters:—

A first class Red Buoy marks the extreme South end of the Orestes Shoal.

A first class Red Buoy marks the Eastern limit of the Orestes Shoal.

A first class Black Buoy marks the extreme edge of the Shoal extending from Porian shore.

A first class Red Buoy, marked Fairway, in white letters, is placed 1½ mile North-East of Diamond Island.

N. B.—The Shoal extending South of Negrais Island is now called the Orestes Shoal, and that extending from the Porian shore Westward the Porian.
